What premiercarservicesp.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website presents Premier Car Service SP as a premium executive transportation and chauffeur business offering airport transfers, one-way journeys, day-use chauffeur packages, luxury vehicles, and booking through online and direct-contact channels.

Scam/Impersonation Risk

The site's visible content is a coherent local-service presentation, with no detected login form, wallet function, or page-level phishing indicator. However, this benign presentation is contradicted by confirmed external threat detections and blacklist status from multiple sources, including malicious classifications by 16 evaluated security engines. The available evidence does not establish a conflicting legal identity or direct brand impersonation, but the external reputation signal is sufficiently material that sensitive interactions, payment activity, and submission of personal information should be treated as unsafe pending independent validation. The site also claims 23 years of executive-transport experience and zero complaints on Reclame Aqui; those on-page assertions do not offset the external detections or independently verify the operator.

EVIDENCE

- The homepage presents chauffeur, airport-transfer, one-way, and day-use services and claims “23 anos” of experience and “zero reclamações” on Reclame Aqui.
- External security telemetry recorded 16 malicious detections, a confirmed blacklist result, and tier-one threat detections from security providers.
- Domain registration continuity: registered 2016-04-04 (~10.38 years old).
- Web-archive history: 681 snapshots spanning 2017-03-29 to 2026-02-05 (10 years tracked).

Regulatory Verification Notes

The available pages identify a commercial transportation service and provide booking and contact mechanisms, but the supplied site content does not present a licensing authority, license number, or independently verifiable regulatory registration. This is a disclosure gap requiring confirmation rather than standalone evidence of fraud. The operator’s real-world identity remains only likely rather than independently verified, so the business name and service claims should not be treated as proof of legal ownership. No matching third-party broker profile was identified, which provides no affirmative regulatory status.

EVIDENCE

- The homepage identifies “Premier Car Service SP – Transporte Executivo de Luxo” and describes executive transport, airport services, fleet, and chauffeur provision.
- The supplied business-model record shows no claimed license authority or license number.
- The site’s transport encryption uses a DV TLS certificate issued by YR1, valid to 2026-09-19.

What to Verify Next

Before any booking, payment, or exchange of personal details, independently confirm the operating company, its physical business presence, and any transport permissions applicable to the relevant jurisdiction. Contact details should be validated through an independently sourced route rather than relying solely on the website, and any payment should use a method offering meaningful dispute and chargeback protection. The requested service, vehicle, pickup location, and cancellation terms should also be confirmed in writing before funds are transferred.

EVIDENCE

- The contact page and homepage provide the primary booking and communication routes requiring independent confirmation.
- The reservation form is the site’s only identified form and is categorized as a contact/reservation form rather than a login form.
- The site links to Facebook, Instagram, and WhatsApp, providing channels whose authenticity and continuity can be checked independently.

Summary Verdict

The website has a **critical trust posture** because confirmed external malicious and blacklist signals outweigh the otherwise coherent service presentation and established domain history. Its apparent business purpose may

be genuine, but the available evidence does not support treating the domain as suitable for sensitive interaction or financial engagement.

Infrastructure Integrity

The domain resolves directly to a single hosting address rather than a detected CDN edge, with infrastructure provided by EVEO S.A. The hosting location is recorded in the Netherlands while the provider is identified as Brazilian, and the infrastructure includes no detected CDN or WAF mitigation; this offers limited protection against reputation-related risk.

EVIDENCE

- Hosted on AS53107 (EVEO S.A., BR), resolving to 45.148.96.61 in the Netherlands.
- Infrastructure telemetry records 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- The site's transport encryption is DV TLS issued by YR1 and valid to 2026-09-19.

Closing Assessment

The proportionate institutional posture is to suspend credential, personal-data, payment, and booking interactions until the operator and service authorization have been independently validated through trusted external channels.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- A large share of what the page loaded came from other domains.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_MODERATE
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	38%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of premiercarservicesp.com.

- The request stayed on premiercarservicesp.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under ENOM, INC.. [CLEAR](#)
- DNS for this domain is served by com.br, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-04-04. [NOTED](#)
- The earliest public archive of this site is from 2017-03-29. [CLEAR](#)
- It is hosted on AS53107, from a server in NL. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about premiercarservicesp.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
