

Is prevenzis.nl legit? TrustSniffer's high-trust assessment: 80/100

prevenzis.nl

Verdict

80

OUT OF 100

HIGH TRUST

prevenzis.nl appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Prevenzis is a Dutch training provider focused on natural vitality and naturopathic therapies, offering accredited multi-year programs, workshops, and a webshop. The page contains course descriptions, contact details, and administrative links.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Prevenzis.nl is a Dutch training and education website focused on natural vitality and naturopathic therapies, presenting multi-year educational programs, courses, workshops, and a small webshop for related products. Its apparent business model is the sale of educational services and products to individuals seeking training or continuing education in natural-health disciplines.

Scam/Impersonation Risk

No contradictions were observed: the available evidence identifies no phishing, impersonation, blacklist, or malicious-content indicators. The site's long-established registration and sustained archival presence are consistent with an established website, while the homepage presents a coherent educational purpose rather than a high-pressure or abuse-oriented offer. The real-world operator identity is not independently verified, so the positive assessment concerns the site's apparent legitimacy and risk posture rather than proof of ownership.

EVIDENCE

- Domain registration: 2006-03-17; age 20.44 years.
- Web archive: 85 snapshots spanning 2007–2026, with 20 years tracked.
- Homepage: no reported fraud indicators, brand-impersonation signals, login form, hidden form, or cryptocurrency-related behavior.
- Available external reputation checks: 0 malicious detections, 0 suspicious detections, 0 blacklist hits, and 0 AbuseIPDB reports.

Regulatory Verification Notes

The site provides administrative pathways including privacy, general terms, complaints, contact, account, and webshop pages, which is consistent with an operating educational and commercial service. It describes its multi-year programs as accredited, but the supplied page evidence does not establish the accrediting authority or a license or registration number; this is a verification gap rather than evidence of a scam. The available evidence is therefore consistent with an apparently legitimate education provider, while its legal-entity identity and any applicable regulatory or accreditation status remain to be independently confirmed.

EVIDENCE

- Hosting infrastructure: served from AS34762, COMBELL-AS – Combell NV, BE.
- Site transport encryption: TLS certificate issued by YR2, validation level DV, valid to 2026-10-01.
- Homepage: links to Privacybeleid, Algemene Voorwaarden, Contact, Contact in geval van klachten, Mijn account, and Webshop.
- About and course content: describes Prevenzis' mission, educational programs, continuing education, and natural-health subject matter; no license authority or registration number is identified in the supplied content.

What to Verify Next

Before credential or payment interactions, independently confirm the legal entity operating the service and review the applicable terms, cancellation or return provisions, and payment-protection arrangements. The stated accreditation should be checked with the named or relevant official accrediting body, and official contact channels should be confirmed through an independent route rather than relying solely on the website.

EVIDENCE

- About and Mission & Vision pages: suitable sources for confirming the operator name, business address, and institutional description.
- Algemene Voorwaarden and Webshop checkout: suitable sources for reviewing contracting-party details, purchase terms, cancellations, refunds, and payment arrangements.
- Contact and complaints pages: suitable sources for confirming published service channels and escalation procedures.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate website. This classification supports ordinary use, but it should not be treated as independent proof of the real-world operator's identity.

Infrastructure Integrity

The site is hosted by Combell NV and does not appear to use a separately identified CDN or WAF layer. This is a conventional, directly hosted infrastructure posture; hosting arrangements alone neither prove legitimacy nor create a material adverse conclusion here.

Closing Assessment

Ordinary engagement is proportionate, subject to the independent merchant-identity, accreditation, contractual, and payment-protection checks above before submitting credentials or making payments.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of prevenzis.nl.

- The request stayed on prevenzis.nl. It was not redirected to another domain. CLEAR
- Registration is published under team.blue nl B.V.. CLEAR
- DNS for this domain is served by creation, across 5 name servers. NOTED
- The earliest public archive of this site is from 2007-02-09. CLEAR
- It is hosted on COMBELL-AS, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about prevenzis.nl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
