

Is primbank.ru legit? TrustSniffer's high-trust assessment: 90/100

primbank.ru

Verdict

90

OUT OF 100

HIGH TRUST

primbank.ru appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 45%.

What this site appears to be

Official-looking website for Bank Primorye (Примбанк), a Vladivostok-based Russian bank offering retail and business banking, deposits, loans, cards, transfers, currency exchange, brokerage, and online banking. The page identifies the legal entity, address, contact channels, Central Bank license, deposit insurance participation, and privacy/cookie practices.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Bank Primorye (Примбанк) presents an official banking platform for retail and business customers, offering deposits, loans, cards, payments, transfers, currency exchange, brokerage, investment services, and online banking.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, behavioral, and external-reputation signals. The homepage consistently presents Bank Primorye, identifies its legal entity and Vladivostok presence, and shows no phishing, brand-impersonation, malicious, or suspicious indicators. Normal interaction, including account login and standard banking use, is appropriate.

- The homepage identifies Bank Primorye and provides consistent banking-service content, with no detected impersonation indicators.
- Behavioral testing found no hidden forms, external password forms, wallet activity, cloaking, clipboard manipulation, or suspicious inline scripts.
- The domain was registered in 2002 and is approximately 24.28 years old.

Regulatory Verification Notes

The site provides substantive institutional disclosures, including a legal entity, physical address, contact channels, Central Bank licensing information, deposit-insurance participation, privacy practices, and financial-service documentation. The specific banking products presented—deposits, lending, payment services, currency exchange, and brokerage—are consistent with an established financial institution. Licensing and deposit-insurance claims should remain subject to routine registry confirmation because the available evidence does not independently verify their current status.

- The homepage identifies the legal entity, address, contact channels, Central Bank license, and deposit-insurance participation.
- The site publishes tariffs, product documentation, privacy information, cookie practices, and security guidance.
- Served from AS12389 (ROSTELECOM-AS - PJSC Rostelecom, RU).
- TLS certificate: HARICA DV TLS RSA, DV validation, valid to 2027-02-06T18:11:54+00:00.

What to Verify Next

Confirm the stated banking license and deposit-insurance participation through the relevant official registry before initiating a material financial relationship. Contact details should also be cross-checked through an independently sourced institutional channel.

- The homepage contains the relevant license and deposit-insurance disclosures.
- Product tariffs and legal documentation are available through the banking site.
- The site provides separate retail, business, online-banking, and security-information areas.

Summary Verdict

The website presents as a legitimate, established, and trustworthy banking institution with a coherent identity, substantive financial-service content, and no observed contradiction or impersonation signal. Its overall posture supports normal interaction and standard account use.

Infrastructure Integrity

The site is served through identifiable Rostelecom infrastructure and uses a valid HARICA DV TLS certificate with substantial remaining validity. These controls support transport security and infrastructure continuity, although they are mitigating technical signals rather than proof of institutional legitimacy.

Closing Assessment

Normal account login and standard banking transactions are appropriate, subject to ordinary financial-institution verification and operational controls for material activity.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of primbank.ru.

- The request stayed on primbank.ru. It was not redirected to another domain. CLEAR
- Registration is published under RU-CENTER-RU. CLEAR
- DNS for this domain is served by 113.101, across 2 name servers. NOTED
- The registration is paid up to 2027-04-27. NOTED

- It is hosted on ROSTELECOM-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about primbank.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
