

Is print-idei.ru safe? TrustSniffer's low-trust assessment: 25/100

print-idei.ru

Verdict

25

OUT OF 100

LOW TRUST

print-idei.ru is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for a Moscow-based custom printing company offering T-shirt, hoodie and souvenir printing. Contact phone and email are listed; ordering process asks for contact then payment/delivery. The page contains unrelated pharmaceutical SEO spam terms indicating possible compromise or injected content.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

What print-idei.ru served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website presents itself as a Moscow-based custom-printing service offering made-to-order T-shirts, hoodies, logo and image printing, sublimation, photo printing, and souvenir products, with an apparent business model based on collecting customer enquiries and fulfilling paid individual or corporate orders.

Scam/Impersonation Risk

A **confirmed external reputation contradiction** materially increases the risk associated with sensitive interaction. The homepage combines a plausible printing-service presentation with unrelated pharmaceutical search-engine-optimisation terms, including Cialis, Kamagra, Viagra, and Levitra, which is consistent with possible compromise or injected content rather than a coherent business site. The site also contains suspicious inline scripts and significant console and page-mutation activity. No separate brand impersonation, phishing form, or conflicting legal-entity identity was observed; however, the confirmed blacklist status remains a serious independent warning, even though the site's apparent business model is ordinary local commerce. The published contact and address information is also flagged as not independently verifiable.

EVIDENCE

- The homepage presents custom T-shirt and souvenir printing while also displaying unrelated pharmaceutical terms such as “Cialis 20mg Pas Cher,” “Kamagra,” “Viagra,” and “Levitra.”
- External reputation checks recorded 4 malicious detections and 1 suspicious detection, and the domain was marked blacklisted by 2 external sources.
- The domain was registered on 2018-11-11 and is approximately 7.78 years old.
- Web-archive records contain 47 snapshots spanning 2018–2026, with 9 years tracked.

Regulatory Verification Notes

The available pages identify the service category but do not independently establish the real-world operator, corporate entity, or applicable business registration. No licence or registration number is claimed in the supplied site content; for a printing business this is a disclosure and verification issue rather than, by itself, evidence of criminal conduct. The site’s title, “My Blog | My WordPress Blog,” is poorly aligned with the stated commercial purpose and adds to the governance-quality concern. One abuse report concerns the hosting IP and is attributed to shared Reg.RU infrastructure with zero confidence, so it should not be treated as evidence that this particular website caused the reported activity. Transport security is present, but the certificate provides domain validation only and does not independently verify the operator.

EVIDENCE

- DNS and hosting resolve through AS197695, operated by “AS-REGRU - _Domain names registrar REG.RU_, Ltd, RU.”
- The site’s TLS certificate was issued by GlobalSign GCC R3 DV TLS CA 2020, uses DV validation, and is valid until 2026-11-23.
- The homepage and navigation expose About, Services, Photos, and Contacts areas, but the supplied content does not establish a named legal operator or registration number.
- A single abuse report is recorded against shared infrastructure at 31.31.196.162; the attribution is to Reg.RU Hosting rather than specifically to the website.

What to Verify Next

Before any payment or submission of personal information, independently confirm the legal operator, trading address, payment beneficiary, delivery obligations, and refund terms through a reliable external business registry or an independently sourced telephone channel. The relevant business-registration or licensing position should be checked with the competent local authority where required. The pharmaceutical SEO injection should also be treated as a reason to request confirmation that the website has been restored and secured before any commercial engagement.

EVIDENCE

- The homepage contains a coherent printing description alongside unrelated pharmaceutical SEO material.
- The site provides contact and order forms, including a form capable of collecting customer details.
- The supplied page analysis identifies unverifiable contact or address information and a mismatch between site claims and supporting evidence.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site may represent an ordinary local printing service, but its identity remains unverified and the convergence of external threat detections, blacklist status, injected content, and governance-quality weaknesses prevents a reliable legitimacy determination.

Infrastructure Integrity

The site resolves directly to a single likely origin address in Russia and is not fronted by a detected CDN or WAF. This provides no meaningful edge-layer mitigation for origin exposure; infrastructure stability and valid transport encryption do not offset the site-level reputation and content concerns.

Closing Assessment

The appropriate course is to limit activity to non-sensitive observation until independent operator, payment, and site-integrity checks have been completed; account credentials, personal data, and financial transactions should not be submitted in the interim.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- The page carried inline scripts written in a style TrustSniffer treats as suspicious.

Behaviour in a sandbox rule:BEHAV_SUSPICIOUS_INLINE_SCRIPTS

- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 31.31.196.162 (Reg.Ru Hosting, Data Center/Web Hosting/Transit), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of print-idei.ru.

- The request stayed on print-idei.ru. It was not redirected to another domain. CLEAR
- Registration is published under REGRU-RU. CLEAR
- DNS for this domain is served by ru., across 2 name servers. NOTED
- The registration is paid up to 2026-11-11. NOTED
- The earliest public archive of this site is from 2018-12-09. CLEAR
- It is hosted on AS-REGRU, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about print-idei.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
