Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Pro Affordable Movers is a Los Angeles-area moving-service website presenting residential, commercial, local, long-distance, and specialty moving services, including piano and pool-table moves. Its apparent business model is to generate service bookings and moving inquiries through free-quote and cost-calculation forms, supported by contact information, location pages, FAQs, and social-media links.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent local-services identity for Pro Affordable Movers, with no detected brand-impersonation, phishing, malicious-activity, or credential-harvesting indicators. The homepage describes a conventional service model and states that the company is “trusted, insured, and bonded”; the available content also includes normal service navigation, a quote workflow, operating hours, and customer-contact channels. These claims support an apparently legitimate presentation, although they do not independently prove the real-world operator’s identity or insurance status.

EVIDENCE

- The homepage and service pages describe residential, commercial, local, long-distance, piano, and pool-table moving services; no page-level red flags were identified.
- The quote and cost-calculator pages contain a contact/quote workflow rather than a login or password-collection form.
- Domain registration records show creation on 2018-10-18 and an age of 7.84 years; historical records span 2019–2026, representing 8 years tracked.
- External reputation checks recorded 0 malicious reports, 0 suspicious reports, and 0 abuse reports; the matched broker-intelligence record was false.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate local moving business, but the operator's real-world identity is not independently verified. The site's on-page disclosure state is unclear, and no license, registration number, or licensing authority is identified in the supplied material; this is a transparency and verification matter rather than evidence of impersonation or fraud. Domain registration through NAMECHEAP INC and use of a privacy service are administrative details, while the site's transport security and stable infrastructure provide additional technical support for normal browsing. No third-party regulated-entity status was established.

EVIDENCE

- The site identifies its business as Pro Affordable Movers and provides an About page, Contact page, FAQ, location pages, and a free-quote pathway.
- The domain registrar is NAMECHEAP INC; the recorded expiration date is 2026-10-18.
- The website is served from AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- The TLS certificate is issued by WE1, uses DV validation, and is valid to 2026-09-23.

What to Verify Next

Before a deposit, invoice payment, or transfer of sensitive account information, an organization should independently confirm the company's legal identity, applicable moving-authority registration or licensing, insurance and bonding claims, written estimate, cancellation terms, and dispute or refund process. Payment should use a method offering appropriate transaction protection, and contact details should be confirmed through an independently sourced business record or offline channel rather than relying solely on the website.

EVIDENCE

- The homepage offers a free-quote and moving-cost-calculator process that can be compared with the written estimate and contract before payment.
- The FAQ and contact pages provide the stated service and customer-support framework for checking cancellation, liability, and payment terms.
- The site links to Facebook, Twitter, Instagram, YouTube, and Trustpilot, providing channels for independent consistency checks.

Summary Verdict

The overall posture is **high trust and low risk**, with converging evidence supporting an established, apparently legitimate service website and no observed scam or impersonation contradictions. The principal residual uncertainty concerns independent confirmation of the real-world operator rather than any detected malicious behavior.

Infrastructure Integrity

Cloudflare CDN/WAF protection places the observed traffic behind mainstream edge infrastructure and reduces direct exposure of the underlying hosting environment. This is a mitigating technical control, not proof of business legitimacy; the observed addresses were Cloudflare edge addresses and no origin server was identified.

Closing Assessment

Ordinary browsing and use of the site’s service-information features are proportionate to the available evidence; credential or payment interactions should follow independent merchant-identity, contract, return or cancellation, and payment-protection checks.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	40%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of proaffordablemovers.com.

- The request stayed on proaffordablemovers.com. It was not redirected to another domain. CLEAR
- Registration is published under NAMECHEAP INC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-18. NOTED
- The earliest public archive of this site is from 2019-08-18. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about proaffordablemovers.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
