

Is promediateknologi.id legit? TrustSniffer's high-trust assessment: 100/100

promediateknologi.id

Verdict

100

OUT OF 100

HIGH TRUST

promediateknologi.id appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-03 by automated analysis. Classification confidence 60%.

What this site appears to be

Indonesian corporate homepage for Promedia Group, a large online-media ecosystem offering publishing infrastructure, editorial and journalism training, digital marketing, advertising support, and partnership or employment opportunities. The page also aggregates company and partner news and provides an office phone number, WhatsApp Business number, social profiles, email address, and office-address section.

Evidence status and limitations

- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is the corporate presence of Promedia Group, an established Indonesian online-media ecosystem that provides publishing infrastructure, editorial training, digital marketing, advertising, content, and back-office support to independent media partners and content creators.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, or other scam indicators were observed. The homepage presents a coherent business model built around media partnerships, programmatic and direct advertising, publisher services, recruitment, and creator opportunities. Its claims of more than 1,250 online-media properties, over 40,000 authors, and 900 million unique users during the preceding 12 months are substantial self-reported scale indicators; although not independently substantiated by the supplied evidence, they are consistent with the site's established media-network presentation rather than a deceptive financial or credential-harvesting proposition. Historical coverage shows continuity without evidence of suspicious repurposing or a change in business category.

- The homepage describes publishing technology, journalism and production training, digital marketing, advertising support, business planning, and partner opportunities under the Promedia Group identity.
- Registered in 2021 (~5.02 years old); the registration is maintained through PT Aksara Data Digital and expires in 2027.
- 69 archive snapshots span 2021–2026 (6 years tracked), with no confirmed semantic drift or suspicious domain repurposing.
- Homepage interaction testing found no login form, hidden form, sensitive external form, cloaking, wallet integration, clipboard hijacking, or suspicious inline script.

Regulatory Verification Notes

The site presents itself as a corporate media-services platform, not as a regulated financial, investment, or brokerage provider. No financial-license claim is made, and none would ordinarily be expected from the stated operating model. The supplied homepage content identifies the Promedia Group brand and publishes office and social-contact channels, although the available page evidence does not establish a formal legal-entity name or

corporate registration particulars. This is a limited corporate-disclosure consideration rather than an indication of deception. No adverse broker-reputation match was identified.

- The homepage identifies Promedia Group and provides an office-address section, telephone and WhatsApp Business channels, email contact, and links to Instagram and Facebook.
- The homepage contains no cryptocurrency offering, investment solicitation, brokerage service, or claimed regulatory authorization.
- Served from AS16509 (AMAZON-02 — Amazon.com, Inc., US).
- The site's transport encryption uses an Amazon RSA 2048 M04 domain-validated certificate, valid to 2026-12-12.

What to Verify Next

For material partnership, advertising, employment, or publisher-onboarding commitments, counterparties should confirm the contracting legal entity, authorized signatory, commercial terms, data-handling obligations, and payment instructions through the organization's established channels. The scale figures presented on the homepage may also be corroborated through contractual documentation or independently attributable audience and publisher records where they affect commercial decisions.

- The homepage invites applications from media partners, content creators, and social-media specialists, creating potential contractual or employment relationships.
- The homepage promotes ownership and management opportunities for online-media properties, making confirmation of rights, responsibilities, revenue arrangements, and platform dependencies relevant before onboarding.
- The privacy navigation and back-office service descriptions indicate that data-processing and operational responsibilities should be addressed in applicable agreements.

Summary Verdict

The website is legitimate, established, and trustworthy. Its coherent corporate identity, sustained historical presence, established traffic footprint, clean external reputation, and benign observed behavior converge on a high-confidence assessment that normal interaction, including account login and standard use where offered, is appropriate.

Infrastructure Integrity

The site operates on mainstream Amazon cloud hosting with valid TLS protection. This provides a conventional and professionally managed delivery posture, although infrastructure quality is appropriately treated as a mitigating security control rather than standalone proof of organizational legitimacy.

Closing Assessment

Prospective users may engage normally, applying standard contractual and payment controls when entering material commercial relationships.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of promediateknologi.id.

- The request stayed on promediateknologi.id. It was not redirected to another domain. CLEAR
- Registration is published under PT Aksara Data Digital. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-28. NOTED
- The earliest public archive of this site is from 2021-08-16. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about promediateknologi.id at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
