Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2006.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Promethean is an established corporate website presenting interactive displays, classroom software, digital-learning tools, and workplace collaboration technology, with a business model centered on selling hardware, software, and related services to organizations.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent corporate/product-marketing identity, with no phishing indicators, credential-harvesting forms, brand-impersonation signals, or malicious reputation findings. Its long operating history and sustained archival presence further support continuity rather than deceptive repurposing.

- The homepage identifies Promethean as a provider of interactive displays and education/workplace software.
- The domain was registered in 2004 and is approximately 22.16 years old.
- The site has 1,187 archive snapshots spanning 2006–2026, with 21 years tracked.
- External reputation checks recorded zero malicious and zero suspicious detections.

Regulatory Verification Notes

The site appears to operate as a commercial technology provider rather than presenting a regulated financial service. No license or registration number is identified in the supplied page evidence; this is a limited disclosure matter requiring ordinary corporate verification, not an indication of impersonation or fraud. Registration privacy is an administrative detail, while the site's corporate presentation, established history, and transport security support its identity assessment.

- The domain registrar is ENOM, INC.; creation date: 2004-06-09; expiration date: 2027-06-09.
- Hosted through AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- TLS uses OV validation and is issued by DigiCert Global G2 TLS RSA SHA256 2020 CA1, valid through 2026-09-26.
- The homepage supports organizational sales and lead-generation interactions through contact and scheduling functionality.

What to Verify Next

For procurement or regulated onboarding, confirm the contracting entity and any applicable corporate registrations through independent business records, and validate the relevant service terms through the site’s legal documentation. Standard account login and normal website use are appropriate within the intended business context.

- The homepage is classified as corporate/product marketing rather than a financial-services interface.
- The site’s stated business model concerns organizational technology products and related services.
- The site provides contact and scheduling pathways suitable for independent commercial confirmation.

Summary Verdict

The website presents a legitimate, established, and trustworthy corporate posture. Its identity, content, historical continuity, clean reputation, and security characteristics converge without contradiction, supporting normal interaction and standard use.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a meaningful defensive layer, and the observed address is a CDN edge address rather than an exposed origin. This is a mitigating infrastructure signal, not independent proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal browsing, account access, and business engagement, applying standard procurement and organizational verification procedures where required.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of prometheanworld.com.

- The request stayed on prometheanworld.com. It was not redirected to another domain. CLEAR
- Registration is published under ENOM, INC.. CLEAR
- DNS for this domain is served by azure-dns.com, across 4 name servers. NOTED
- The registration is paid up to 2027-06-09. NOTED

- The earliest public archive of this site is from 2006-12-14. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about prometheanworld.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
