Full analysis

Overview

Prometheus is a Ukrainian online education platform offering more than 500 free and paid courses, professional career programs, certifications, corporate learning, scholarships, mentorship, and subscription-style access through Prometheus PLUS. Its apparent business model combines paid education and corporate training with free programs supported by partnerships and other commercial offerings.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent education-focused identity, with course catalogues, career programmes, pricing, learner reviews, partner references, scholarships, certificates, and policy information. The content, business model, and historical record align without indicators of phishing, brand impersonation, malicious behaviour, or deceptive redirection.

- Homepage content identifies Prometheus as a Ukrainian professional-development platform and describes more than 500 online courses.
- The homepage presents learner counts, issued certificates, career programmes, reviews, partners, and social programmes as part of one consistent educational offering.
- The domain was registered on 2014-06-26 and is approximately 12.11 years old.
- Historical records contain 5,000 snapshots spanning 9 years, from 2014-08-18 to 2022-03-13.

Regulatory Verification Notes

The site provides public contact, policy, course, pricing, partnership, and educational information, supporting a transparent commercial education model. No specific licence or registration number is represented in the supplied content; for an education provider, this is a verification point rather than evidence of wrongdoing. External reputation checks identified no malicious or suspicious detections, and no relevant third-party broker match was present.

- Homepage content identifies paid courses, professional programmes, Prometheus PLUS access, corporate training, and free educational offerings.
- The homepage includes pricing, certification, partnership, contact, and policy information.
- The domain registrar is ПП "Український хостінг"; registration expires on 2030-06-26.
- Hosted on AS13335 (Cloudflare); TLS certificate issued by WE1 (DV), valid to 2026-10-01.

What to Verify Next

For institutional procurement or regulated use, confirm the provider’s legal status and any applicable education or certification authorisations through the relevant Ukrainian registry. Independently confirm official support and contact channels before executing contractual or high-value commercial arrangements.

- The supplied site content includes contact and policy information but does not state a specific licence or registration number.
- The platform advertises certificates, professional programmes, corporate learning, and partnerships that may warrant independent confirmation for formal recognition.
- The transport encryption is currently valid and uses DV validation.

Summary Verdict

Prometheus presents as a legitimate, established, and trustworthy education platform with a coherent identity, substantial operating history, clean reputation signals, and consistent site content. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

Cloudflare provides the site’s CDN and WAF protection, and all observed addresses were Cloudflare edge servers rather than an exposed origin. This reduces direct origin exposure and is a mitigating infrastructure factor, but it is not independent proof of legitimacy.

Closing Assessment

Normal educational use is appropriate; formal purchasers should complete their standard legal and accreditation checks before relying on certificates or entering institutional agreements.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about prometheus.org.ua at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
