Full analysis

Overview

Prominvest is an established Russian B2B technology provider for maritime carriers, cargo owners, and customs operations, offering electronic declarations, preliminary notifications, digital signatures, specialized shipping portals, virtual servers, and technical support.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or malicious detections were identified. The homepage presents a coherent corporate service model, including customs processing, maritime documentation, electronic signatures, portal access, and infrastructure services, rather than investment or financial-return claims. Long-running historical continuity further supports the conclusion that the current site represents an established operating service.

- Domain registered in 2000 and approximately 26.25 years old.
- 238 archive snapshots spanning 2001-04-02 to 2026-05-17, covering 26 tracked years.
- The homepage identifies the business as “Company Prominvest” and presents detailed B2B service categories without phishing or impersonation indicators.

Regulatory Verification Notes

The site provides company information, a Nakhodka office location, telephone contacts, organizational details, and dedicated company and licensing-related pages. The supplied evidence does not establish a verified regulatory license or registration number; this is a transparency point for administrative confirmation, not an indication of fraud. External reputation checks were clean, and no broker-dataset match was identified.

- Registered through RU-CENTER-RU.
- Hosted on AS49505, operated by SELECTEL - JSC Selectel, RU.
- TLS certificate issued by YE1 with DV validation, valid through 2026-09-26.
- The homepage navigation includes “About the company,” “Contacts,” and an FSB license page.

What to Verify Next

Before entering into a formal service agreement, the prospective counterparty should confirm the organization’s legal details and any applicable licensing status through the relevant official registry, using contact details independently obtained from corporate records where practical.

- The homepage provides organization information and multiple telephone contacts.

- The site exposes dedicated sections for company information, licensing, portal policy, documentation, and technical support.

Summary Verdict

The website presents as a legitimate, established, and trustworthy corporate service provider with a coherent operating model and no observed scam, phishing, or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to infrastructure operated by SELECTEL - JSC Selectel, RU, on AS49505, with no CDN or WAF identified. A single resolved origin address and valid TLS provide ordinary transport and hosting integrity, while the absence of a protective CDN is simply an infrastructure characteristic rather than a legitimacy concern.

Closing Assessment

Standard business engagement and account use are appropriate, with routine contractual and regulatory checks proportionate to the service relationship.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about prominvest.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
