

Is prontowash.com.py a scam? TrustSniffer's high-risk assessment: 0/100

prontowash.com.py

Verdict

0

OUT OF 100

CRITICAL RISK

prontowash.com.py shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

ProntoWash Paraguay is the local franchise page for an ecological vehicle-washing service offering exterior, interior and premium packages, franchising information, and contact details (phone, WhatsApp, email, Instagram).

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://prontowash.com.py/>

What prontowash.com.py served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

ProntoWash Paraguay is a local franchise website for an ecological vehicle-washing service, presenting exterior, interior, and premium vehicle-cleaning packages together with franchising information and booking channels for customers in Asunción, Paraguay.

Scam/Impersonation Risk

The site's visible content is consistent with a conventional automotive service: the homepage describes ecological washing, service packages, franchising, and local contact options, with no login form, payment form, cryptocurrency feature, or overt phishing mechanism observed. However, this benign presentation is outweighed by confirmed external threat detections and blacklist status. Fifteen malicious and three suspicious detections were recorded across evaluated security services, including detections from Fortinet, Kaspersky, and Sophos; this is a material contact-channel and site-reputation contradiction requiring a security-forward posture. No conflicting legal-entity names or explicit brand-impersonation indicators were observed on the supplied page

content, but the blacklist finding remains sufficient to treat sensitive interaction as unsafe pending independent resolution.

EVIDENCE

- The homepage presents the site as “ProntoWash Paraguay,” an ecological vehicle-washing franchise with exterior, interior, and premium services.
- External security telemetry recorded 15 malicious detections and 3 suspicious detections for the domain, with Fortinet, Kaspersky, and Sophos among the flagged vendors.
- The domain was identified by two external blacklist sources; general browsing behavior did not show a login form, hidden form, wallet connection, or external password-submission destination.

Regulatory Verification Notes

The site provides a local service description, an Asunción location, telephone and social-contact references, and franchise-related claims, but the supplied content does not identify a specific legal entity, licensing authority, registration number, or verified regulatory status. This is a disclosure and verification gap rather than evidence of a separate identity contradiction. The domain’s historical record shows continuity across the available period, while its independently verified operator identity remains unresolved. The transport layer is technically valid, but domain-validation TLS and standard hosting infrastructure do not establish business ownership or regulatory standing.

EVIDENCE

- The homepage identifies the business as ProntoWash Paraguay and gives Asunción, Paraguay as its location, but does not state a legal entity or license number.
- The domain has an authoritative age of 3.51 years; historical records show first seen 2021-12-21T16:54:02Z and last seen 2023-08-31T08:27:21Z, with 3 years tracked.
- The site is hosted on AS26347 (DREAMHOST-AS - New Dream Network, LLC, US).
- The site uses a DV TLS certificate issued by YR1, valid to 2026-11-13T15:41:01+00:00.

What to Verify Next

Before any booking, franchise discussion, payment, or submission of personal information, the claimed local franchise relationship should be confirmed through an independently sourced ProntoWash corporate channel rather than relying solely on the site’s own contact details. The operating entity and any applicable Paraguayan commercial, consumer-service, or franchise requirements should also be checked against the relevant official registry; the supplied material does not provide the identifiers needed to complete that check directly.

EVIDENCE

- The homepage claims more than 18 years of experience, presence in 18+ countries, and more than 100 service points; these claims require confirmation through an independently sourced corporate record.
- The homepage supplies a Paraguayan telephone number, WhatsApp channel, Instagram account, and Asunción location that can be cross-checked through an offline or independently obtained business source.
- The homepage describes franchising as part of the business model, making confirmation of the contracting legal entity and franchise authority particularly important before any commercial commitment.

Summary Verdict

The website presents a plausible local-service proposition, but the overall trust posture is **critical for sensitive interaction** because confirmed external malicious detections and blacklist status create a decisive contradiction that the site's coherent content cannot overcome. The real-world operator identity is not independently verified, so the website should not be treated as an established or authenticated business presence.

Infrastructure Integrity

The site resolves directly to DreamHost hosting rather than a detected CDN or WAF edge, and no origin-candidate set was identified. This infrastructure provides ordinary hosting availability but limited protective mediation; infrastructure characteristics do not offset the external reputation findings.

Closing Assessment

Pending independent resolution of the security detections and confirmation of the operating entity, activity should remain limited to passive review, with no credential submission, payment, or other sensitive interaction.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, behaviour in a sandbox, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- A large share of what the page loaded came from other domains.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_MODERATE
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	55/100

Identity verification confidence	60%
----------------------------------	-----

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of prontowash.com.py.

- The request stayed on prontowash.com.py. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2021-12-21. CLEAR
- It is hosted on DREAMHOST-AS, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about prontowash.com.py at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
