

Is pussyspace.com legit? TrustSniffer's high-trust assessment: 90/100

pussyspace.com

Verdict

90

OUT OF 100

HIGH TRUST

pussyspace.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 75%.

What this site appears to be

Adult video aggregation site (porn tube) providing free streaming of explicit videos organized by categories and tags; claims no signup required and includes standard site links (Privacy, Terms, DMCA).

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What pussyspace.com served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2002.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

PussySpace is a free adult-video aggregation website presenting explicit streaming clips organized through categories, tags, performers, and live-cam links. Its apparent business model is ad- and affiliate-supported access to adult content, with the homepage stating that viewing is available without registration.

Scam/Impersonation Risk

No phishing, impersonation, or other identity contradictions were observed. The site's content and behavior are consistent with an adult-content platform rather than a credential-harvesting service: no login form, sensitive form, hidden form, wallet activity, clipboard manipulation, or cloaking was detected. A small number of suspicious inline scripts were recorded, and one external reputation check produced an isolated malicious classification; however, this signal was not corroborated by the other supplied reputation checks, which found no confirmed malicious-site status, no abuse reports, and no brand-impersonation indicators. The isolated result should therefore be treated as a soft contact- or reputation-related signal rather than evidence that the site is an impersonation or phishing operation.

EVIDENCE

- The homepage presents adult streaming content, categories, tags, performers, and live-cam links, with no signup requirement stated.
- Behavioral analysis recorded 2 suspicious inline scripts, but 0 hidden forms, 0 password-submission destinations, 0 wallet-provider detections, and no cloaking.
- The domain has 984 archive snapshots spanning 2002–2026, covering 25 tracked years, with a maximum recorded gap of 2 years and no suspicious repurposing.

Regulatory Verification Notes

The site provides Privacy, Terms, and DMCA links, which is a useful baseline for content and platform disclosures. The available material does not independently establish the real-world operator identity, and no licensing authority or registration number is presented for verification; this is a transparency matter rather than evidence of a scam. The domain is registered through Internet Domain Service BS Corp., while registrant information is administratively privacy-protected. The wider reputation context is favorable overall, including a strong traffic footprint and no matched broker-reputation record, but it does not constitute a legal, licensing, or regulatory determination.

EVIDENCE

- WHOIS records show registration on 2014-04-02T10:01:53Z, an age of 12.38 years, and expiration on 2027-04-02T10:01:53Z.
- The registrar is Internet Domain Service BS Corp.
- The site is served from AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- TLS uses issuer YE2 with DV validation and is valid to 2026-10-31T17:37:30+00:00.

What to Verify Next

Before any credential or payment interaction, an organization should independently confirm the operator's legal identity, review the applicable Terms, Privacy, and DMCA disclosures in full, and assess whether the service's content-distribution practices are acceptable under the relevant policy and jurisdiction. Any future commercial or account-based feature should also be checked through independent merchant-identity, refund or cancellation, and payment-protection channels rather than relying solely on on-site claims.

EVIDENCE

- The homepage contains links to Privacy, Terms, and DMCA pages.
- Page analysis detected 0 forms and no sensitive-input form.
- The observed page behavior recorded 2 successful analysis runs and a stable HTTP 200 response pattern.

Summary Verdict

The overall posture is **high trust**, and the available evidence is consistent with an established, apparently legitimate website. No scam or impersonation contradiction was identified, although the real-world operator identity remains independently unverified.

Infrastructure Integrity

Cloudflare CDN and WAF protection are present, with observed addresses limited to Cloudflare edge infrastructure and no origin candidate identified. This is a mitigating security control that reduces direct origin exposure and supports infrastructure stability, but it is not proof of operator legitimacy.

Closing Assessment

Ordinary access may proceed subject to applicable organizational content policies; any later credential or payment interaction should be preceded by independent checks of the counterparty, terms, and available payment protections.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pussyspace.com.

- The request stayed on pussyspace.com. It was not redirected to another domain. CLEAR
- Registration is published under Internet Domain Service BS Corp.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-02. NOTED
- The earliest public archive of this site is from 2002-09-23. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pussyspace.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
