## Key findings

---

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

---

### Overview

This website is a Chinese interest-community and marketplace platform for collectibles, trading cards, games, anime, script-murder experiences, and related fan communities, offering search, community participation, merchant onboarding, account access, and an accompanying mobile application.

### Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or malicious reputation findings were observed. The homepage presents a coherent marketplace and community purpose, identifies its operating company, and shows no sensitive form, hidden form, wallet-drainer, or financial-manipulation behavior. The site therefore presents as a legitimate established platform rather than an impersonation or scam operation.

- The homepage identifies the platform as “千岛” and presents communities and trading categories spanning collectibles, cards, games, anime, and script-murder activities.
- The domain was registered on 2005-11-29 and is approximately 20.68 years old.
- Archive records contain 20 snapshots spanning 2003–2025, covering 23 years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.

### Regulatory Verification Notes

The homepage identifies Shanghai Bi You Hui Xiang Intelligent Technology Co., Ltd. and displays ICP and public-security registration information, providing meaningful operator and filing disclosures. No specific financial-services license or regulatory authorization is presented; this is a transparency point for any activity that may fall within a regulated category, not evidence of deception. The available third-party broker context produced no adverse match.

- The homepage displays “上海必有回响智能科技有限公司,” ICP filing number 沪ICP备2021023751号, and public-security filing number 沪公网安备31010702008587号.
- Hosting resolves through AS37963, ALIBABA-CN-NET – Hangzhou Alibaba Advertising Co.,Ltd., CN.
- The site uses a RapidSSL TLS RSA CA G1 certificate with DV validation, valid through 2026-10-15.
- The page presents no specific license number or regulated-services authorization.

### What to Verify Next

For regulated or higher-value transactions, confirm any applicable authorization through the relevant official registry and review the platform's transaction, merchant, refund, and fee terms before commitment. App provenance and official support channels should be confirmed through the platform's own published distribution and contact routes.

- The homepage does not display a specific fee schedule.
- Merchant onboarding and account functionality make transaction terms and counterparty procedures the relevant checks before higher-value activity.

Summary Verdict

The website has a high-trust posture and reads as a legitimate, established online platform. Its identity, operating purpose, technical stability, and clean reputation converge without observed contradiction, making normal interaction and standard use appropriate.

Infrastructure Integrity

The site is hosted directly on Alibaba infrastructure in China, with no CDN or WAF identified and two likely origin addresses resolved. This provides a straightforward hosting posture; the valid mainstream TLS certificate mitigates transport risk, although hosting protection itself is not proof of legitimacy.

Closing Assessment

Normal account login and standard platform use are appropriate, with ordinary due diligence applied to any transaction-specific commitment.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of qiandao.cn.

- The request stayed on qiandao.cn. It was not redirected to another domain. CLEAR
- Registration is published under 阿里云计算有限公司（万网）. CLEAR
- DNS for this domain is served by alidns.com, across 2 name servers. NOTED
- The registration is paid up to 2029-11-29. CLEAR
- The earliest public archive of this site is from 2003-11-20. CLEAR
- It is hosted on ALIBABA-CN-NET, from a server in CN. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about qiandao.cn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
