- Automated classification: Not Scam.
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

R-Shop.gr is a Greek online fashion retailer presenting men's, women's, unisex, outlet, and branded clothing, footwear, and accessories through a conventional ecommerce storefront with customer accounts, shopping-cart functionality, delivery and returns information, contact details, and social-media presence.

Scam/Impersonation Risk

No contradictions were observed between the site's stated retail purpose, its page structure, and its observed behavior. The homepage presents a coherent fashion catalogue featuring brands such as BOSS, Hugo, Polo Ralph Lauren, Barbour, Calvin Klein, GANT, Lacoste, and UGG, while the account and shopping functions align with ordinary ecommerce use. External screening found no confirmed malicious or blacklist finding; the isolated unconfirmed reputation signal does not outweigh the site's established commercial footprint.

- The homepage is classified as an ecommerce storefront with no detected red-flag content or brand impersonation.
- The homepage provides product categories, customer-account functionality, shopping-cart features, delivery information, returns information, and contact details.
- Domain history records 144 archive snapshots from 2009-02-25 through 2026-05-20, spanning 18 tracked years; the authoritative domain age is 17.429158110882955 years.

Regulatory Verification Notes

The site operates as a retail merchant rather than presenting an investment or regulated-financial service. Its pages provide practical commerce information and contact details, but the supplied evidence does not establish a specific regulatory licence or registration number. This is a limited disclosure point for ordinary retail due diligence, not evidence of deceptive identity or impersonation. The site's established domain continuity and stable technical presentation support its legitimacy assessment.

- The homepage identifies a Greek fashion-retail business model and presents branded merchandise for online purchase.
- The site's hosting infrastructure is served from AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The transport certificate is issued by WE1 at DV validation level and is valid through 2026-09-19T17:25:06+00:00.

What to Verify Next

Before a high-value purchase, the purchaser should confirm the applicable business and consumer-protection details through the relevant Greek registry or official commerce channels, and independently validate delivery,

returns, and payment terms using the site’s published information. Standard account login and ordinary shopping use are appropriate.

- The homepage exposes telephone contact details and links to Facebook, Instagram, TikTok, Pinterest, and Twitter.
- The site includes dedicated delivery and returns information alongside normal ecommerce account functionality.
- The observed login form had no untrusted destination or hidden sensitive form.

Summary Verdict

R-Shop.gr presents as a legitimate, established, and trustworthy ecommerce website. Its commercial purpose is coherent across the available pages, its operating history is substantial, and no scam, phishing, impersonation, or identity contradiction was identified.

Infrastructure Integrity

The site is protected by Cloudflare’s CDN/WAF infrastructure, with all observed addresses belonging to CDN edge servers and no origin candidate identified. This reduces direct exposure of the underlying service and is a mitigating security characteristic, although infrastructure protection alone does not establish legitimacy.

Closing Assessment

Normal interaction, including account login, checkout, and standard use of the storefront, is appropriate, with routine confirmation of order and consumer-service terms before significant purchases.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of r-shop.gr.

- The request stayed on r-shop.gr. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2009-02-25. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about r-shop.gr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
