

Is racingdealma.com.ar legit? TrustSniffer's high-trust assessment: 100/100

racingdealma.com.ar

Verdict

100

OUT OF 100

HIGH TRUST

racingdealma.com.ar appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-03 by automated analysis. Classification confidence 75%.

What this site appears to be

Spanish-language independent news site providing daily reporting, analysis, opinion, and community coverage about Argentina's Racing Club. It identifies editorial staff, provides institutional and policy links, disclaims official affiliation with the club, offers a newsletter, and uses an extensive advertising and privacy-consent system.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Racing de Alma is a Spanish-language independent sports-news publication focused on Argentina's Racing Club, presenting daily reporting, transfer coverage, match information, interviews, opinion, youth-team news, and a newsletter through an advertising-supported editorial model.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, malicious reputation findings, or suspicious payment mechanics were observed. The site expressly positions itself as an independent publication rather than an official Racing Club property. Its long-established domain, continuous historical presence, attributed journalism, and clean external threat reputation strongly support a legitimate media operation.

- The domain was registered in 2017 and is approximately 9.54 years old; registration records identify nicar as registrar and IUELE AGUSTIN EZEQUIEL as owner.
- The web archive contains 755 snapshots spanning 17 March 2017 to 14 July 2026, representing 10 years of tracked history without detected semantic drift or suspicious repurposing.
- The homepage identifies individual article authors and contains substantive, current coverage of Racing Club rather than a credential-capture, payment, or investment proposition.
- Technical reputation checks recorded 0 malicious and 0 suspicious detections, no phishing finding, no external threat-list hit, and no reported abuse against the observed delivery infrastructure.

Regulatory Verification Notes

The website operates as a sports-media publication, not as a financial service, broker, payment provider, or investment platform; consequently, financial licensing is not relevant to its apparent business model. Its editorial positioning is supported by identified staff, institutional and policy pages, and a clear non-affiliation disclaimer. The extensive personalized-advertising consent ecosystem is a privacy-management consideration, but it does not undermine the site's identity or legitimacy.

- The homepage describes the service as independent Racing Club news and provides links to institutional and policy materials.
- The site expressly disclaims official affiliation with Racing Club.
- The observed form is limited to newsletter subscription, with no sensitive form, password field, or untrusted submission destination.

- The homepage presents a cookie-consent prompt, personalized-advertising controls, and a large advertising-vendor consent list.

What to Verify Next

Routine institutional due diligence should confirm that the current masthead, editorial policies, privacy notice, and consent choices remain consistent with the intended interaction. Any material communication attributed to the publication can be validated through its established public channels before reliance.

- The site maintains a broad public presence across YouTube, Instagram, Facebook, X, Twitch, TikTok, and Threads, providing independent channels for attribution checks.
- The homepage offers named editorial categories covering the first team, reserves, youth divisions, interviews, opinion, and transfer activity.
- Behavioral testing completed two successful interaction runs without cloaking, hidden forms, wallet access, clipboard manipulation, fingerprinting, or suspicious inline scripts.

Summary Verdict

The website is a legitimate, established, and trustworthy independent sports publication. Its identity, historical continuity, editorial substance, technical reputation, and observed behavior converge consistently, with no contradictory risk signals. Normal interaction, including newsletter use and any standard account functionality offered by the site, is appropriate.

Infrastructure Integrity

The site uses a mainstream edge-protection architecture that reduces direct exposure of its underlying server and provides conventional transport and web-application safeguards. This is a meaningful technical mitigation, although infrastructure protection alone is not proof of legitimacy.

- The site is served from AS13335 (Cloudflare, Inc., US) through Cloudflare CDN/WAF infrastructure.
- All six observed addresses were Cloudflare edge servers; no origin-server candidate was exposed during the assessment.
- The site's transport encryption uses a WE1-issued domain-validated TLS certificate, valid until 26 October 2026.

Closing Assessment

Prospective users may engage with the publication normally while applying standard privacy preferences to advertising consent and independently confirming any unusually consequential communication attributed to it.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of racingdealma.com.ar.

- The request stayed on racingdealma.com.ar. It was not redirected to another domain. CLEAR
- Registration is published under nicar. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-19. NOTED
- The earliest public archive of this site is from 2017-03-17. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about racingdealma.com.ar at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
