

Is radiocampusrouen.fr a scam? TrustSniffer's high-risk assessment:
0/100

radiocampusrouen.fr

Verdict

0

OUT OF 100

CRITICAL RISK

radiocampusrouen.fr shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Official-looking website for Radio Campus Rouen, a volunteer student radio station. Contains podcasts, programming, articles, advertiser information, and contact details. No login, payment collection, or investment solicitation detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://radiocampusrouen.fr/>

What radiocampusrouen.fr served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2016.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Radio Campus Rouen is an official-looking local student and community radio website presenting podcasts, programming schedules, articles, live and recorded broadcasts, advertiser services, and contact information; its apparent operating model is a volunteer-run association supported by advertising, partnerships, events, and related services rather than user investment.

Scam/Impersonation Risk

The site's informational presentation is internally consistent with a community radio service, and the page review found no login form, payment collection, investment solicitation, or apparent brand-impersonation mechanism. However, this benign surface conflicts with convergent external threat intelligence: the domain has been classified as malicious by multiple security services and is subject to confirmed blacklist findings from more than one source. This is a material security contradiction and takes precedence over the site's apparent purpose. No separate identity contradiction was identified across the supplied content, but the available evidence does not support treating the domain as safe for sensitive interaction.

EVIDENCE

- The homepage identifies Radio Campus Rouen as a 100% volunteer Rouen-based student radio and presents podcasts, programming, broadcasts, and local editorial content.
- The contact and advertiser pages describe ordinary radio contact and commercial advertising services rather than investment or financial products.
- External reputation telemetry records 17 malicious detections and 1 suspicious detection from 23 evaluated results; Fortinet and Sophos were among the flagged security vendors.
- The domain was registered on 2016-01-11 and is recorded as 10.61 years old; archived coverage spans 2016-06-17 to 2026-06-10, with 11 years tracked.

Regulatory Verification Notes

The site appears to describe an association-style community radio operation, but the supplied material does not establish a regulated financial or otherwise licensed status. The available advertiser and contact content should therefore be treated as commercial and identity information requiring independent confirmation rather than as proof of legal standing. The independent broker-context dataset produced no match, which provides no affirmative regulatory endorsement. The apparent connection to the named radio identity is likely but not independently verified.

EVIDENCE

- The “Régie Publicitaire,” “Nos Offres,” and contact pages describe advertising, media-education, external broadcasting, internships, and related services.
- No license claim, licensing authority, or license number is recorded in the supplied site analysis.
- The site’s domain registrar is Hostinger operations UAB.
- The site is hosted on AS47583 (AS-HOSTINGER - Hostinger International Limited, CY); its TLS certificate is issued by YE2 with DV validation and is valid to 2026-10-12.

What to Verify Next

Before any sensitive interaction, an institution should confirm the radio association and its current contact details through an independently sourced municipal, educational, association, or broadcaster record, rather than relying solely on the website. Any proposed commercial engagement should be documented through independently confirmed contact channels and conventional contractual and payment-protection controls. The domain and hosting environment should also be reviewed by the organization’s security team before it is allowlisted or accessed from privileged systems.

EVIDENCE

- The contact page provides a telephone contact and an administrative email channel for independent comparison against external records.
- The homepage capture completed successfully and contained no login form, hidden sensitive form, or password-submission destination.
- The site’s business-model analysis classifies the visible activity as informational community broadcasting with advertising services, not financial intermediation.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. Although the website presents a coherent community-radio purpose, the external security contradictions are sufficiently material that apparent legitimacy cannot be relied upon for credential, administrative, or financial decisions.

Infrastructure Integrity

The site resolves to a single likely origin address hosted by Hostinger, with no CDN detected in the supplied infrastructure assessment. The valid DV TLS certificate provides transport encryption, but it does not establish operator legitimacy or offset the external reputation findings.

Closing Assessment

Access should be limited to passive viewing from a controlled environment, with credentials, privileged access, downloads, and financial or administrative engagement withheld unless independent verification and a security review produce a clear basis for proceeding.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- The page sent data to a destination TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS

- A large share of what the page loaded came from other domains.

Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_MODERATE

- The page made background requests to destinations TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR

- The page exchanged network traffic with destinations TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC

- The structure of the page changed sharply while it was loading.

Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE

- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of radiocampusrouen.fr.

- The request stayed on radiocampusrouen.fr. It was not redirected to another domain. CLEAR
- Registration is published under Hostinger operations UAB. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-11. NOTED
- The earliest public archive of this site is from 2016-06-17. CLEAR
- It is hosted on AS-HOSTINGER, from a server in ES. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about radiocampusrouen.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
