

Is radiorecord.ru legit? TrustSniffer's high-trust assessment: 90/100

radiorecord.ru

Verdict

90

OUT OF 100

HIGH TRUST

radiorecord.ru appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 55%.

What this site appears to be

Main landing page for Record (Radio Record) — Russian dance/radio station site listing channels, podcasts, events, genres, and offering login/premium access. Content is in Russian and includes extensive genre/channel listings and site navigation.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://radiorecord.ru/

What radiorecord.ru served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website is Record Dance Radio, a Russian-language online radio and streaming service presenting multiple music channels, podcasts, schedules, events, news, advertising opportunities, and an optional paid Premium offering, supported by advertising, subscriptions, and event promotion.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent media business with extensive channel, genre, podcast, event, and broadcast-schedule content rather than a deceptive or investment-oriented proposition. Its login function is visible as a conventional account feature, with no observed phishing, brand-impersonation, wallet, or other high-risk abuse indicators. The available external reputation evidence is clean, and the domain has a long registration history and a strong global traffic footprint, supporting an established-site interpretation while not independently proving the real-world operator's identity.

EVIDENCE

- The homepage identifies “Record Dance Radio” and provides substantive navigation for channels, podcasts, events, schedules, news, and Premium access.
- Registered through REGTIME-RU on 2000-05-05; domain age approximately 26.3 years.
- Evaluated external reputation checks recorded no malicious or suspicious detections, and the domain is ranked 18711 within the global top 1 million websites.

Regulatory Verification Notes

The site appears to operate as a media and entertainment service rather than presenting a regulated financial product. The visible materials provide links for “Про Record” and “Контакты,” but the supplied page content does not establish a specific legal operator, corporate registration number, or licensing basis; this is a disclosure and verification gap, not evidence of deception. The available evidence is therefore consistent with an apparently legitimate established website, while the operator’s independent identity remains unverified.

EVIDENCE

- Homepage navigation includes dedicated “Про Record” and “Контакты” sections, indicating designated identity and contact areas.
- The homepage’s stated commercial model is advertising-supported radio and streaming with optional Premium subscription and event promotion, not a claimed regulated financial service.

What to Verify Next

Before credentials or payment details are submitted, an independent check should confirm that the legal merchant named during Premium enrollment matches the operator information published through the site’s identity and contact pages. For any paid subscription, the applicable cancellation, renewal, refund, and payment-protection terms should be reviewed, and official contact channels should be confirmed through an independent route.

EVIDENCE

- The Premium page is the relevant transaction surface for paid access.
- The login form is the relevant credential-bearing surface and should be assessed together with the site’s identity and account terms.

Summary Verdict

The overall posture is high trust and low risk, with evidence consistent with an established, apparently legitimate website and no observed scam or impersonation contradiction. The classification supports normal browsing and ordinary service interaction, but it does not constitute independent proof of the real-world operator’s identity.

Infrastructure Integrity

The site resolves directly to a hosting address without a detected CDN or edge-IP layer. Its hosting is provided by DDOS-GUARD, which may offer network-level resilience, but that infrastructure is only a mitigating technical characteristic and is not proof of legitimacy.

EVIDENCE

- Served from AS57724 (DDOS-GUARD - DDOS-GUARD LTD, RU), with one resolved IP address, 185.178.210.237, in RU.
- TLS certificate issued by YR2 with DV validation, valid to 2026-11-14.

Closing Assessment

Ordinary use is proportionate to the assessed posture; credential or payment interactions should proceed after the routine independent merchant-identity, cancellation, refund, and payment-protection checks described above.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
--------	------------

Identity score	55/100
----------------	--------

Identity verification confidence	60%
----------------------------------	-----

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of radiorecord.ru.

- The request stayed on radiorecord.ru. It was not redirected to another domain. CLEAR
- Registration is published under REGTIME-RU. CLEAR
- DNS for this domain is served by net., across 2 name servers. NOTED
- The registration is paid up to 2027-05-31. NOTED
- It is hosted on DDOS-GUARD, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about radiorecord.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
