Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Raksha Packaging Solutions Private Limited is a corporate B2B website presenting industrial packaging, crating, cargo-securing, corrosion-protection, and related wooden packaging services for commercial, industrial, logistics, and aerospace customers.

Scam/Impersonation Risk

No blacklist, phishing, impersonation, malicious-content, or conflicting-identity signals were observed. The site describes a conventional industrial-services business model involving packaging, plywood boxes, wooden crates, lashing, storing and securing cargo, and corrosion protection; its content contains no crypto, investment, high-yield, gambling, or other abuse-oriented mechanics. Behavioural testing observed external network activity and console errors, but no hidden forms, sensitive data forms, wallet activity, clipboard manipulation, or login-form abuse; these observations do not establish a scam or impersonation pattern. The available evidence therefore supports an apparently legitimate, low-risk corporate site, while the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage and services pages describe packaging, crating, lashing, storing and securing, and corrosion-protection services for commercial and industrial goods.
- Behavioural testing recorded 16 external XHR requests, 8 external POST requests, 2 console errors, and no hidden forms, password forms, wallet-provider activity, or wallet-drainer activity.
- Domain registration records show creation on 2021-03-06, an age of 5.46 years, GoDaddy.com, LLC as registrar, and an expiry date of 2028-03-06.
- Archive telemetry records 0 snapshots, with first seen on 2015-09-27, last seen on 2025-04-11, and 11 years tracked.

Regulatory Verification Notes

The legal and business presentation is consistent with an industrial packaging supplier rather than a financial or otherwise clearly regulated service. The site identifies Raksha Packaging Solutions Private Limited and provides company, service, team, project, gallery, and contact content, but it does not present a license claim or license number; this is a disclosure point for ordinary business verification, not evidence of fraud. Available external reputation checks found no confirmed blacklist or malicious-content result, and the broker-context check produced no match. A low page-authority measurement indicates limited measured prominence, not a regulatory or security finding. The independently recorded registrant organization is EVEZON INDIA PRIVATE LIMITED, so the relationship between the registrant and the on-site business should be confirmed before material commercial engagement.

EVIDENCE

- WHOIS records identify GoDaddy.com, LLC as registrar, EVEZON INDIA PRIVATE LIMITED as the registrant organization, creation date 2021-03-06T12:34:02Z, and expiration date 2028-03-06T12:34:02Z.
- The site's homepage and company-information pages identify Raksha Packaging Solutions Private Limited and present business contact and service information.
- Hosting resolves through AS47583, AS-HOSTINGER - Hostinger International Limited, CY.
- The site's transport encryption uses a valid DV certificate issued by YE1, valid to 2026-10-27T04:46:52+00:00.

What to Verify Next

Before a substantial purchase, service contract, credential submission, or payment, the prospective counterparty should independently confirm that Raksha Packaging Solutions Private Limited is the contracting entity and establish the relationship between that entity and the recorded registrant. Applicable Indian corporate, export, timber-packaging, or industry requirements should be checked against the transaction and service scope rather than inferred from the website. Payment arrangements should use documented purchase orders, contractual terms, and payment protections appropriate to the transaction, with contact channels confirmed through an independent business source.

EVIDENCE

- The contact page publishes business contact details and the site includes About, Our Team, Projects, Gallery, and Contact pages that can be reconciled against independent business records.
- The navigation includes an “Admin Login” link, while testing detected no login form or sensitive form on the observed page.
- The site presents service and product information but does not provide a license number or regulated-service authorization claim.

Summary Verdict

The overall posture is **high trust and low risk**, and the evidence is consistent with an established, apparently legitimate corporate website. No contradiction-based scam or impersonation indicators were identified, but the available evidence does not independently prove the real-world operator’s identity.

Infrastructure Integrity

The site is hosted on Hostinger infrastructure in Ukraine and does not use a detected CDN edge layer; four resolved addresses were assessed as likely origin addresses. Hostinger is an established hosting provider and the identified infrastructure is a mitigating technical signal, but hosting arrangements alone do not establish business legitimacy.

Closing Assessment

Normal browsing and ordinary business engagement are proportionate, subject to independent merchant-identity, contractual, return or service-delivery, and payment-protection checks before credentials or funds are provided.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of rakshapackaging.in.

- The request stayed on rakshapackaging.in. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GoDaddy.com, LLC. [CLEAR](#)

- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2028-03-06. CLEAR
- The earliest public archive of this site is from 2015-09-27. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about rakshapackaging.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
