

Is rauda.edu.ar safe? TrustSniffer's moderate-trust assessment: 70/100

rauda.edu.ar

Verdict

70

OUT OF 100

MODERATE TRUST

rauda.edu.ar is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Safe for Read-Only

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Official-looking site for RAUDa (Red Argentina Universitaria de Artes) containing institutional pages, news, meeting reports, and event announcements. Content is organizational and informational with no evident calls for payment or sensitive-data collection.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

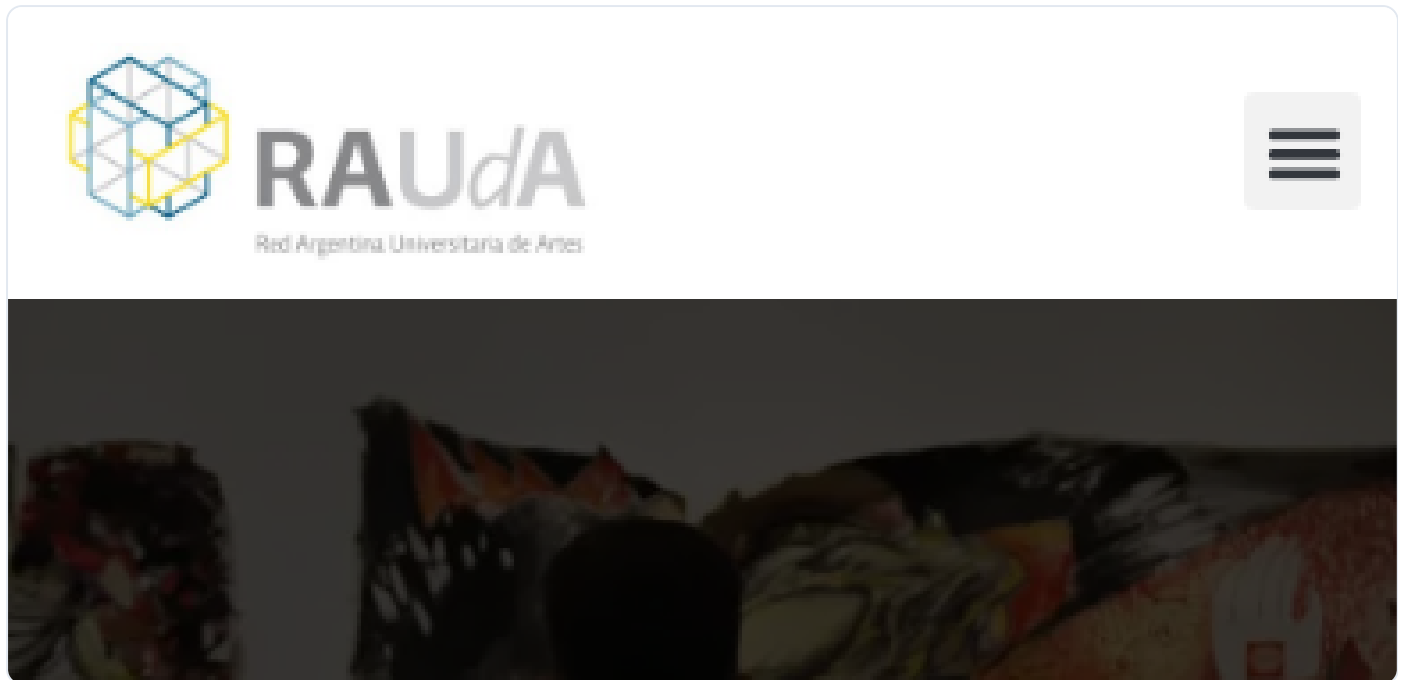

At a glance

The page as captured

<https://rauda.edu.ar/>

What rauda.edu.ar served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Safe for Read-Only.
- Public web-archive history exists since 2019.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

RAUdA is an informational academic and nonprofit network for Argentina's university arts community, presenting institutional information, authorities, statutes, management reports, member information, news, plenary meetings, projects, and event announcements rather than commercial transactions or investment services.

Scam/Impersonation Risk

No contradictions were observed. The homepage and institutional content consistently identify the organization as "Red Argentina Universitaria de Artes" and present an academic, organizational purpose, with no visible payment solicitation, credential-collection form, login workflow, wallet connection, or impersonation indicators. One external abuse report concerns the hosting IP, but it is attributed to shared data-center infrastructure with zero confidence and is therefore not evidence that the website itself is malicious.

EVIDENCE

- The homepage presents institutional news, university arts meetings, event announcements, and public organizational statements; no payment or sensitive-data collection is visible.
- The homepage contains no login form, hidden sensitive form, external password form, wallet connection, or suspicious browser behavior.
- The hosting IP has 1 abuse report attributed to shared infrastructure at NUT HOST SRL, with confidence score 0.

Regulatory Verification Notes

The site provides substantive organizational material through pages labelled Authorities, Statute, Members, Historical Review, and Management Reports. Its apparent identity is consistent with the academic-network purpose presented on the site, but independent connection to a real-world operating entity remains unverified. No license or registration number is stated on the visible pages; for an informational academic network this is a transparency item for confirmation, not evidence of a scam. The site uses Argentine hosting infrastructure and valid domain-validated transport encryption.

EVIDENCE

- The institutional navigation includes “Autoridades,” “Estatuto,” “Miembros,” “Reseña Histórica,” and “Informes de gestión 2022–2025.”
- Hosted on AS264649, identified as AS264649 - NUT HOST SRL, AR.
- TLS certificate issued by YR2 with DV validation, valid to 2026-09-30T05:42:56+00:00.

What to Verify Next

Before relying on the site for sensitive or high-value activity, independently confirm that the named network is recognised by one or more universities listed or referenced through its institutional materials. Confirm the current authorities and governing statute through an independent academic channel, and use contact details obtained from an independently verified university or institutional source rather than relying solely on the website.

EVIDENCE

- The site publishes authority, statute, member, historical, and management-report sections that can be cross-checked against independent university sources.
- The visible site is informational and does not currently present a sensitive transaction or account workflow.

Summary Verdict

The website has a **moderate-trust, apparently legitimate informational posture** with no observed phishing, impersonation, or active abuse pattern. Its content is coherent with an academic nonprofit network, while the real-world operator connection is not independently established; consequently, the evidence supports ordinary informational use but not automatic reliance for high-value or sensitive decisions.

Infrastructure Integrity

The site resolves through direct hosting rather than a detected CDN or WAF edge, with one likely origin address. This provides a straightforward hosting path but offers less edge-layer mitigation than mainstream CDN-protected deployments; infrastructure characteristics alone do not determine legitimacy.

EVIDENCE

- Infrastructure resolution identified 1 unique IP, 0 CDN edge IPs, and 1 likely origin IP.
- The resolved infrastructure is registered through LACNIC in Argentina.

Closing Assessment

The site is suitable for ordinary informational browsing, while independent confirmation of institutional affiliations and contact channels should precede any sensitive or high-value reliance.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 167.250.6.83 (NUT HOST SRL, Data Center/Web Hosting/Transit), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of rauda.edu.ar.

- The request stayed on rauda.edu.ar. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2019-03-14. CLEAR
- It is hosted on AS264649, from a server in AR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about `rauda.edu.ar` at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
