Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website presents a Dubai-based refrigerated transport and vehicle-rental service, offering temperature-controlled logistics through chiller vans, refrigerated trucks, freezer vehicles, reefer services, and pickup rental, with the apparent business model of generating service and rental fees through customer enquiries.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent local-service model rather than a financial, cryptocurrency, credential-harvesting, or impersonation operation, and the supplied analysis found no phishing indicators, malicious reputation result, brand-impersonation signal, or confirmed blacklist indication. The site's service descriptions are specific to refrigerated transport, including temperature-controlled goods movement and vehicle rental, while its single contact form does not request sensitive information. Available historical and registration evidence is consistent with an established domain, although it does not independently verify the real-world operator.

EVIDENCE

- The homepage describes refrigerated trucks, freezer vehicles, chiller vans, reefer services, and pickup rental as the core services.
- The homepage contains one ordinary contact form; no login form, hidden sensitive form, wallet connection, or password submission was detected.
- The domain was registered on 2016-04-20 and is approximately 10.34 years old; archival records contain 31 snapshots spanning 2017–2025, covering 9 tracked years.

Regulatory Verification Notes

The website functions as a local logistics and rental-service presentation rather than a site making a regulated financial-services claim. The available page material identifies the service category and provides customer contact details, but it does not independently establish the legal identity of the operating business or provide a licensing basis. This is a verification and disclosure matter, not evidence of a scam. A separate broker-reputation dataset produced no match, which is contextual support but not a licensing or regulatory determination. The website also has limited search-optimization and structured business metadata, reducing machine-readable corroboration without creating an identity contradiction.

EVIDENCE

- The homepage title identifies a refrigerated and chiller transport service in Dubai and provides a telephone contact.
- The site's content identifies the business as a local service/contact website and describes revenue as service fees and vehicle rentals.
- The domain registrar is Launchpad.com Inc.; the site is served from AS31898, Oracle Corporation, US.
- The TLS certificate is issued by YR2, uses Domain Validation (DV), and is valid until 2026-09-30.

What to Verify Next

Before a credential or payment interaction, an enterprise or customer should independently confirm the operator's legal business name, physical operating details, service terms, cancellation or return conditions for vehicle rental, and the applicable payment-protection arrangements. For any regulated activity implied by a specific transaction or contract, the relevant Dubai or UAE authority should be checked directly. Contact channels should also be confirmed through an independent, offline route before material commitments are made.

EVIDENCE

- The homepage provides telephone contact details and a service enquiry form, creating a basis for independent contact confirmation.
- The site identifies multiple service categories but does not, in the supplied material, provide independently verified corporate or licensing particulars.
- The service model involves customer payments for transport or vehicle-rental services, making contract, cancellation, and payment-protection terms operationally relevant.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website presenting a conventional Dubai refrigerated-transport business. No scam, phishing, impersonation, or other contradictory signal was observed, supporting a high-trust, low-risk posture; however, the real-world operator identity remains independently unverified.

Infrastructure Integrity

The site resolves to a single Oracle-hosted address, with no CDN, edge IP, or origin-candidate separation identified. This is a straightforward hosting posture and does not itself establish legitimacy, but the resolved infrastructure is technically consistent and did not present a confirmed concealment or abuse pattern.

EVIDENCE

- Hosting provider: ORACLE-BMC-31898 - Oracle Corporation, US.
- Network resolution identifies one unique IP address, 50.87.151.148, with zero edge IPs and zero likely origin candidates.
- No CDN or WAF vendor was detected in the supplied infrastructure findings.

Closing Assessment

Ordinary service enquiries may proceed, subject to independent confirmation of the merchant's identity, contractual terms, and payment protections before credentials or funds are provided.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of refrigeratedvansdubai.com.

- The request stayed on refrigeratedvansdubai.com. It was not redirected to another domain. CLEAR
- Registration is published under Launchpad.com Inc.. CLEAR
- DNS for this domain is served by hostgator.com, across 2 name servers. NOTED
- The registration is paid up to 2029-04-20. CLEAR
- The earliest public archive of this site is from 2017-09-22. CLEAR

- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about refrigeratedvansdubai.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
