

Is reidoscoins.com.br legit? TrustSniffer's high-trust assessment: 80/100

reidoscoins.com.br

Verdict

80

OUT OF 100

HIGH TRUST

reidoscoins.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

Brazilian online store 'Rei dos Coins' offering digital gift cards and game credits with fast delivery claims, support contact, company registration (CNPJ) and address listed.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Brazilian online retailer Rei dos Coins presents a Brazilian-focused ecommerce service for digital gift cards, game credits, and in-game currency, with rapid electronic delivery, gamer-oriented product coverage, customer accounts, shopping-cart functionality, online payment, and stated support and business information.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradiction was observed. The homepage presents a coherent digital-goods retail model, although claims such as delivery within 1–25 minutes, “number one in Brazil,” and 24-hour online support are commercial representations rather than independent proof of performance. External reputation checks found no malicious or suspicious designation for the domain. A limited reputational signal exists for the shared Sucuri hosting address, where abuse reports are attributed to shared provider infrastructure rather than specifically to the retailer; this does not establish misconduct by Rei dos Coins.

EVIDENCE

- Homepage: Lists gift cards and gaming credits for PlayStation, Xbox, Google Play, Nintendo, Steam, Free Fire, Roblox, Valorant, and other gaming and digital-service brands.
- Homepage: Displays the delivery claim of “1 à 25 Minutos,” the “Número #1 em Gift Cards no Brasil” statement, and “Suporte Online 24h.”
- Domain registration: Registered 2015-12-19; approximately 10.65 years old.
- Web archive: 234 snapshots spanning 2015–2026, covering 12 years with a maximum recorded gap of 1 year.

Regulatory Verification Notes

The site presents itself as a Brazilian business and publishes a CNPJ and address, which provides useful on-page identification context. The available material does not show a financial-services license or license number; for a digital-goods retailer this is a regulatory-disclosure point to clarify rather than evidence of fraud. The real-world operator remains independently unverified, so the on-site business information should be treated as an apparent identity claim, not as independently proven ownership. Transport security is present through a valid domain-validated certificate issued by a known certificate authority.

EVIDENCE

- Legal and contact information: The site displays a CNPJ and business address.
- Hosting infrastructure: Served from AS30148, operated by SUCURI-SEC – Sucuri, US.
- TLS certificate: Issued by Starfield TLS Intermediate CA DV - R1v1 at DV validation level; valid to 2026-09-27T02:21:41+00:00.

What to Verify Next

Before credential or payment interactions, an enterprise or consumer should independently confirm the published CNPJ and address through the relevant Brazilian corporate registry, review the site's refund and delivery terms, and ensure that the selected payment method provides appropriate transaction protection. Official support and contact channels should also be confirmed through an independent route, particularly for disputed or undelivered digital goods.

EVIDENCE

- Legal-information pages: Provide the CNPJ and address that can be checked against an independent Brazilian registry.
- Ecommerce flow: The site is structured around account access, orders, cart activity, and online payment for digital products.
- Product pages and checkout: The stated rapid-delivery model makes preservation of order confirmations and payment records relevant to any subsequent dispute.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website operating a low-risk digital-goods retail model. Sustained domain continuity, coherent commercial content, clean external reputation findings, stable observed behavior, and valid transport security converge on a high-trust posture, while independent operator verification remains incomplete.

Infrastructure Integrity

Sucuri CDN/WAF protection provides a mitigating layer between visitors and the site's backend and reduces direct exposure of the origin environment; that protective arrangement is not, by itself, proof of business legitimacy. The observed edge infrastructure is hosted in the United States.

Closing Assessment

Ordinary browsing and standard ecommerce interaction are proportionate to the available risk assessment, subject to routine independent checks of merchant identity, fulfillment terms, and payment protection before material transactions.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 7 reports on hosting IP 192.124.249.57 (Sucuri, Commercial), 23% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of reidoscoins.com.br.

- The request stayed on reidoscoins.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by nameservers8.net, across 4 name servers. NOTED
- The registration is paid up to 2034-12-19. CLEAR
- The earliest public archive of this site is from 2015-12-28. CLEAR
- It is hosted on SUCURI-SEC, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about reidoscoins.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
