Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is Remix, a Bulgarian-language secondhand fashion ecommerce marketplace offering discounted clothing, shoes, accessories, delivery, returns, quality checks, and a clothing-resale service through Wear&Share.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model with identifiable product categories, pricing, promotions, delivery commitments, returns, quality checks, and more than 2,000 listed products. External reputation checks found no malicious, phishing, blacklist, or brand-impersonation indicators, supporting the conclusion that the site is legitimate and established.

- Domain records: registered 2006 and approximately 20.56 years old.
- Homepage: presents secondhand clothing, footwear, accessories, pricing, delivery within three days, 14-day returns, and quality assurance.
- External reputation assessment: malicious detections 0, suspicious detections 0, and traffic rank 19887.

Regulatory Verification Notes

The site's legal and contact pages provide business, delivery, returns, and consumer-service information consistent with an established ecommerce operation. No regulated financial-service license claim or license number is presented; this is a transparency item relevant only if the business is assessed under a licensing regime beyond ordinary retail. The available third-party broker-reputation context produced no matching record.

- Legal and contact pages: provide legal details and customer-contact information.
- Homepage: identifies the business model as secondhand fashion retail and clothing resale.
- Transport security: TLS certificate issued by Sectigo Public Server Authentication CA DV R36, using DV validation, valid through 2026-12-23.

What to Verify Next

For institutional onboarding or higher-value procurement, independently confirm the operating entity and applicable consumer-protection obligations through the relevant corporate and consumer registries. Standard customer-service, delivery, and returns terms should also be retained with transaction records.

- Homepage: states delivery, returns, quality-check, and promotional terms.
- Site legal pages: provide the documentary basis for independent operator and consumer-rights checks.

Summary Verdict

The overall posture is that of a legitimate, established, high-trust ecommerce website. The available identity, content, reputation, and technical signals converge without evidence of scam, phishing, or impersonation activity.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer between visitors and the site's origin, while observed traffic resolves through DELTA-BG-AS - Delta HighTech Ltd.; the origin server was not identified in the supplied infrastructure assessment.

- Hosting: served through AS8860, DELTA-BG-AS - Delta HighTech Ltd., Bulgaria.
- CDN/WAF: Cloudflare detected; observed edge IP 79.98.105.206, with no origin candidate identified.

Closing Assessment

Normal browsing, account login, and standard purchases are appropriate, subject to ordinary transaction-record and consumer-protection practices.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of remixshop.com.

- The request stayed on remixshop.com. It was not redirected to another domain. CLEAR
- Registration is published under Network Solutions, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2030-01-12. CLEAR
- It is hosted on DELTA-BG-AS, from a server in BG. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about remixshop.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
