

Is remous.fr a scam? TrustSniffer's high-risk assessment: 18/100

remous.fr

Verdict

18

OUT OF 100

CRITICAL RISK

remous.fr shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

French-language hosting placeholder page stating the site is unavailable and referring the domain owner to the iWal manager. No active content, no forms, no offers.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

SITE INTROUVABLE

:YulPa

What remous.fr served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

remous.fr is currently a French-language unavailable-domain placeholder page. It informs visitors that the requested site cannot be found or may be suspended and directs the domain owner to the iWal management interface, indicating an inactive or parked domain rather than an operating commercial service.

Scam/Impersonation Risk

The principal risk is not an active offer on the homepage but the domain's adverse external reputation: the domain is recorded as blacklisted by multiple external sources, including four malicious detections in evaluated reputation results. This is a material contradiction that outweighs the otherwise neutral presentation of the hosting placeholder. No brand impersonation or conflicting legal-entity identity was observed on the available page, and the page contains no active login, payment, or transaction workflow; nevertheless, the confirmed blacklist status supports a clearly cautionary posture for sensitive interaction.

EVIDENCE

- The homepage is titled “yulPa : Site introuvable” and states in French that the site is unavailable or suspended, with a link to the iWal manager.
- External reputation results recorded 4 malicious detections and a confirmed blacklist status for the domain.
- Historical records show 27 archive snapshots spanning 2006–2026, across 12 tracked years; these records do not indicate suspicious repurposing between the historical and current page categories.
- The domain registration record dates to 2020-05-19 and indicates an age of approximately 6.26 years.

Regulatory Verification Notes

The available page does not identify an operating legal entity, regulated activity, licensing authority, or license number. Because the site is only a hosting placeholder, this is a disclosure gap rather than evidence of a specific unlicensed financial service; however, the operator’s real-world identity remains unverified. The site also presents no active business model or customer-facing terms through which regulatory status could be assessed. The registration record names GANDI as registrar, but registrar information does not establish the identity, authorization, or legitimacy of the operator.

EVIDENCE

- The homepage contains only an unavailable-site notice and hosting-management references; no company, address, license, or regulatory disclosure is presented.
- The site’s hosting infrastructure is identified as AS197492, INEONET-AS - ALSATIS SERVICES SAS, FR.
- The site uses a valid DV TLS certificate issued by YR1, with validity through 2026-10-15.
- The registration record lists GANDI as registrar and an expiry date of 2027-05-19.

What to Verify Next

Before any sensitive interaction, an independent check should confirm whether the domain is currently authorized to represent a specific organization and whether that organization appears in the relevant corporate or regulatory registry. Any future version of the site should be assessed for consistent legal identity, terms, privacy disclosures, and independently verifiable contact channels. The blacklist findings should also be reconciled through independent security review before credentials, payments, account recovery details, or other sensitive information are considered.

EVIDENCE

- The current homepage provides no operating service, transaction flow, or stated regulated activity to validate.
- Identity verification remains unresolved because no independently attributable organization is presented on the available page.
- The external reputation result is materially adverse despite the absence of active forms or offers on the captured homepage.

Summary Verdict

The overall posture is critical, with sensitive interaction risk driven by adverse external reputation and unresolved operator identity. The available evidence does not support treating the domain as an established, legitimate service for credentials, financial activity, or other sensitive use.

Infrastructure Integrity

The domain resolves directly to a single endpoint associated with INEONET-AS - ALSATIS SERVICES SAS in France, with no detected CDN or WAF layer and no separate edge-IP layer. A valid DV TLS certificate protects transport encryption, but these infrastructure characteristics provide only limited mitigation and do not establish operator legitimacy.

Closing Assessment

Activity should remain limited to passive observation until the domain's identity and adverse reputation are independently resolved; credentials and financial information should not be submitted.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of remous.fr.

- The request stayed on remous.fr. It was not redirected to another domain. CLEAR
- Registration is published under GANDI. CLEAR
- DNS for this domain is served by yulpa.io, across 3 name servers. NOTED
- The registration is paid up to 2027-05-19. NOTED
- The earliest public archive of this site is from 2013-06-15. CLEAR
- It is hosted on INEONET-AS, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about remous.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
