What restaurantvistamar.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Restaurant Vistamar is an informational local-business website for a restaurant in Riumar, within the Delta de l'Ebre, presenting home-style cuisine, local seafood and produce, its waterfront setting, contact details, and a physical location for prospective diners and reservations.

Scam/Impersonation Risk

The site's visible content is consistent with a local restaurant: it contains menu-related descriptions, a telephone number, a street address, and no login form, payment form, financial offer, or obvious impersonation element. However, this benign presentation is materially contradicted by external threat intelligence: the domain is confirmed as **blacklisted**, with three malicious detections and a Tier-1 detection associated with Fortinet. The available evidence therefore supports a high-risk posture for sensitive interaction despite the site's ordinary restaurant content; the real-world operator remains unverified. Evidence:

- The homepage identifies Restaurant Vistamar in Riumar and describes Delta de l'Ebre cuisine, local seafood, produce, and its terrace.
- The homepage contains no sign-in, password, wallet, or sensitive payment form.
- External reputation checks recorded 3 malicious detections, a Fortinet Tier-1 threat detection, and blacklist status.
- The domain registration record shows creation on 2010-03-29 and an age of approximately 16.4 years.

Regulatory Verification Notes

The website includes links labelled “Avís legal” and “Política de Cookies,” but the supplied page content does not provide a substantive legal-entity name, registration number, licence information, or regulatory authority. For a restaurant site, this is primarily a disclosure and business-verification matter rather than evidence of a financial-regulatory breach. The registration record identifies GlobalsTechs Development SL as the organization and 10DENCEHISPAHARD, S.L as registrar; the site’s identity is nevertheless not independently verified. A valid domain-validated certificate and identifiable hosting infrastructure provide technical continuity, but they do not establish operator legitimacy. Evidence:

- The homepage displays “Avís legal” and “Política de Cookies” links without substantive legal or licensing text in the captured content.
- The domain was registered through 10DENCEHISPAHARD, S.L; the recorded organization is GlobalsTechs Development SL.
- The site is hosted on AS49635, CLOUDING - CLOUDI NEXTGEN SL, ES.
- TLS is issued by YR2 at DV validation level and is valid to 2026-10-27T09:36:43+00:00.

What to Verify Next

Before any sensitive interaction, an independent party should confirm that Restaurant Vistamar operates at the published Passeig de Marítim, 40 address and that the listed telephone number reaches the venue through an independently obtained source. The legal notice should be reviewed for the operating entity and applicable consumer terms, and any reservation or payment request should be completed only through a separately confirmed channel. Credentials or financial information should not be submitted through this domain unless its connection to the venue has been independently established. Evidence:

- The homepage provides a physical address in Deltebre and a reservation/contact telephone number.
- The captured site has no sensitive forms, login functionality, or untrusted form destination to validate.
- The operator identity is marked unverified by the available identity assessment.

Summary Verdict

The website has a credible local-restaurant presentation but an overall **critical trust posture** because confirmed blacklist and malicious-detection signals outweigh the otherwise benign page content and long registration history. It should not be treated as a trustworthy channel for sensitive interaction or as independently authenticated evidence of the restaurant operator.

Infrastructure Integrity

The site resolves directly to one likely origin address hosted by CLOUDING - CLOUDI NEXTGEN SL in Spain, on AS49635, with no CDN or WAF identified. Its DV TLS certificate protects transport in transit, but the absence of an identified protective edge means infrastructure provides limited mitigation against the external reputation concerns.

Closing Assessment

Use independently sourced venue and contact details for any ordinary business confirmation, and suspend credential, payment, or other sensitive activity until the domain's operational connection to the restaurant has been established through an offline or separately trusted channel.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of restaurantvistamar.com.

- The request stayed on restaurantvistamar.com. It was not redirected to another domain. CLEAR
- Registration is published under 10DENCEHISPAHARD, S.L. CLEAR
- DNS for this domain is served by cdmon.net, across 5 name servers. NOTED
- The registration is paid up to 2027-03-29. NOTED
- The earliest public archive of this site is from 2011-02-03. CLEAR

- It is hosted on CLOUDING, from a server in ES. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about restaurantvistamar.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
