

Is rgradv.com a scam? TrustSniffer's high-risk assessment: 5/100

rgradv.com

Verdict

5

OUT OF 100

CRITICAL RISK

rgradv.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

RGR Advogados & Consultores — Brazilian law firm site describing practice areas, locations, contact form and firm background. No financial/investment solicitations detected.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	5 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR

What rgradv.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website presents RGR Advogados & Consultores as a Brazilian legal-services firm offering corporate, tax, labor, healthcare, real-estate, family, restructuring, compliance, and startup advisory services, with office information, publications, recognition content, and a contact facility for prospective clients.

Scam/Impersonation Risk

The site's visible content is consistent with a professional law-firm profile and contains no observed brand-impersonation, phishing, login, investment, or credential-harvesting indicators. However, this benign presentation is materially contradicted by external threat intelligence: five malicious detections, one suspicious detection, and a confirmed blacklist status were recorded across two external sources. The combination warrants treating the domain as unsuitable for credentials, financial information, or other sensitive interactions despite the site's credible-looking legal content.

EVIDENCE

- The homepage and practice-area pages describe RGR Advogados & Consultores and list legal services including corporate, tax, labor, healthcare, real-estate, restructuring, and compliance work.
- External reputation checks recorded 5 malicious detections and 1 suspicious detection; blacklist status was confirmed by 2 sources.
- The domain was registered in 2017 and is approximately 9.57 years old.
- Web-archive records contain 29 snapshots spanning 2018–2026, with 9 years tracked.

Regulatory Verification Notes

The About and practice-area content presents an identifiable legal-services business model based on consultations, retainers, hourly work, and representation rather than financial solicitation. The site does not state a professional license number or licensing authority, so the legal standing of the firm and the individuals offering services remains a verification gap; this is not, by itself, evidence of fraud. Identity verification remains incomplete, and the privacy-protected registration record should be treated as an administrative limitation rather than independent confirmation of the operator. The site's low external authority profile and confirmed threat detections reduce the evidentiary weight of its professional presentation.

EVIDENCE

- The site's hosting infrastructure is AS47583, operated by AS-HOSTINGER — Hostinger International Limited, CY, with Germany identified as the server country.
- The site's transport encryption uses a DV certificate issued by YE1, valid through 2026-11-06.
- The domain registration record identifies ENOM, INC. as registrar, with creation on 2017-01-24 and expiration on 2027-01-24.
- The website's legal-service pages do not display a license number or licensing authority.

What to Verify Next

Before any engagement, independently confirm the firm and the responsible professionals through the relevant official professional registry, using contact details obtained from that registry rather than relying solely on the website. Confirm the contracting legal entity, engagement terms, payment beneficiary, and any requested document or identity-submission process through an independently validated channel; until those checks are complete, interaction should remain limited to passive review.

EVIDENCE

- The contact page provides a single contact form rather than a transactional account or client-login workflow.
- The site links to Facebook, Instagram, and LinkedIn profiles that can be cross-checked against independently verified firm records.
- The site's stated business model is legal consultation and representation, with no financial or investment solicitation identified in the reviewed pages.

Summary Verdict

The overall posture is **critical risk**. The site's professional presentation and apparently coherent business model do not overcome the confirmed external threat indicators, and the available evidence does not establish that the domain is suitable for sensitive engagement.

Infrastructure Integrity

The domain resolves directly to two likely origin addresses, with no CDN detected and no edge-IP layer identified. This provides limited infrastructure-based mitigation: the site is hosted on conventional shared hosting, and its valid DV TLS certificate protects transport confidentiality but does not establish operator legitimacy.

EVIDENCE

- Infrastructure resolution identified 2 unique IP addresses, with 0 edge IP addresses and 2 likely origin IP addresses.
- No CDN was detected in the infrastructure assessment.
- The resolved hosting network is registered through RIPE NCC and associated with Germany.

Closing Assessment

Prospective users should avoid submitting credentials, identity documents, payment information, or other sensitive material until independent professional-registration and counterparty checks have been completed; existing users should consider escalating the domain for security review.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	39%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of rgradv.com.

- The request stayed on rgradv.com. It was not redirected to another domain. CLEAR
- Registration is published under ENOM, INC.. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-24. NOTED
- The earliest public archive of this site is from 2018-08-07. CLEAR
- It is hosted on AS-HOSTINGER, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about rgradv.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
