Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2022.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

РИА Новости Медиабанк is a professional Russian media archive and search portal presenting millions of photographs, videos, graphics, illustrations, and editorial materials for institutional media access, licensing, and related content services.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-content, or conflicting-identity signals were observed. The search page presents a coherent media-archive function, including advanced filtering, editorial categories, file-based image search, and more than four million indexed materials; it does not solicit deposits or sensitive credentials. The site's established domain history and clean observed behavior further support continuity between its stated purpose and its operation.

- Domain registered in 2021; approximately 4.98 years old, based on the domain registration record.
- 4,974 web-archive snapshots spanning 2022–2026, with 5 years tracked.
- The search page contains no login form, hidden form, password submission, wallet connection, or suspicious destination.

Regulatory Verification Notes

The website operates as an informational media archive rather than a financial service, so no financial licensing claim is expected from the observed business model. The available page evidence does not establish a specific corporate registration or media-rights disclosure; this is a limited transparency point for procurement or rights-clearance review, not evidence of deception. No related third-party broker-reputation match was identified.

- The site describes searchable photographs, videos, graphics, illustrations, and editorial materials, with institutional licensing and content access as the apparent commercial model.
- Hosted on AS201706, AS-SERVICEPIPE / SERVICEPIPE LLC, RU.
- TLS certificate issued by YE1 using DV validation, valid to 2026-09-13.
- Domain registrar: RU-CENTER-RU.

What to Verify Next

For formal procurement, confirm the applicable media-licensing terms, copyright permissions, and the responsible contracting entity through the site's published legal or commercial materials. Official support and contact channels should also be confirmed through an independent corporate directory or established offline relationship before executing a large licensing commitment.

- The search page identifies the service as “РИА Новости Медиабанк” and provides extensive editorial and archive classifications.

- The observed page contains search and file-upload functions but no sensitive-data form.
- The site’s stated model concerns media access and licensing rather than deposits, investment returns, or financial transactions.

Summary Verdict

The website presents as a legitimate, established, and trustworthy media-information service. Its identity, operating purpose, historical continuity, clean reputation signals, and observed page behavior align without contradiction, making normal interaction—including account login where offered and standard use—appropriate.

Infrastructure Integrity

The site resolves directly to infrastructure operated by AS-SERVICEPIPE / SERVICEPIPE LLC in Russia, with no trusted CDN or WAF detected and one likely origin address observed. This is a neutral infrastructure characteristic; the valid transport encryption provides baseline protection, while the hosting arrangement should not by itself be treated as proof of legitimacy.

Closing Assessment

The service is suitable for normal browsing and routine operational use, with rights and contracting checks proportionate to any commercial media-licensing commitment.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of riamediabank.ru.

- The request stayed on riamediabank.ru. It was not redirected to another domain. CLEAR
- Registration is published under RU-CENTER-RU. CLEAR
- DNS for this domain is served by ru., across 2 name servers. NOTED
- The registration is paid up to 2026-08-10. NOTED
- The earliest public archive of this site is from 2022-09-01. CLEAR
- It is hosted on AS-SERVICEPIPE, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about riamediabank.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
