- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is the online presence of Rinzo (林蔵), a Japanese local furniture maker and retailer presenting custom-made wooden furniture, live-edge tables, showroom visits, product galleries, an online shop, and contact or reservation options for customers in Saitama.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent local-business model centred on made-to-order furniture, natural materials, showroom activity, and direct retail rather than deceptive financial or credential-harvesting activity. The site has no detected login form, hidden sensitive form, wallet interaction, cloaking, or suspected brand impersonation, and available external reputation checks found no malicious or suspicious detections. The evidence therefore supports an apparently legitimate, low-risk site, while not independently proving the real-world operator's identity.

EVIDENCE

- The homepage identifies Rinzo wood furniture, displays custom-furniture and live-edge product content, and provides showroom and workshop locations in Saitama.
- The homepage analysis found no login form, hidden form, sensitive form, wallet connection, clipboard activity, or suspected brand impersonation.
- The site's transport encryption is valid and uses a DV certificate issued by YR1, supporting ordinary encrypted web delivery.

Regulatory Verification Notes

The site's business model is ordinary furniture retail and custom manufacturing, not a presented financial or otherwise regulated service. Its footer identifies the operator as 株式会社フルヤ and provides showroom and workshop addresses, but the available evidence does not independently verify that claimed operator identity. No financial or regulatory licence claim is presented; this is a disclosure point for merchant verification rather than evidence of a scam. The available third-party broker context contains no matching warning, and no contradictions were identified.

EVIDENCE

- The homepage footer states “運営元：株式会社フルヤ” and lists the showroom at 2-6-18 Sasai, Sayama, Saitama, and the workshop at 3-13-17 Sasai, Sayama, Saitama.
- The domain was registered in 2018 and is approximately 8.28 years old; the listed registrar is Japan Registry Services Co.,Ltd. (JPRS).
- The site is hosted on AS9370, SAKURA-B - SAKURA Internet Inc., JP.
- The TLS certificate is DV, issued by YR1, and valid to 2026-10-25T19:18:36+00:00.

What to Verify Next

Before a payment or credential interaction, an interested party should independently confirm the operating company and showroom details using an offline or independently sourced contact route. The online-shop terms should be reviewed for seller identification, returns, delivery, warranty, and payment-protection arrangements, and the contact or reservation channel should be confirmed as belonging to the same business. For a higher-value furniture order, payment should use a method offering appropriate dispute or buyer protection.

EVIDENCE

- The site provides dedicated Contact, Online Shop, Privacy, and reservation pathways in its navigation.
- The homepage states that showroom reservations are handled through LINE and provides email contact options.
- The site includes maintenance and aftercare content, which provides a relevant basis for checking warranty and post-sale responsibilities.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website for a local Japanese furniture business, with a high-trust and low-risk posture. The site's identity appears plausible from its content and stated

operating details, but the real-world operator remains likely rather than independently verified.

Infrastructure Integrity

The site resolves to a single direct hosting address, with no CDN or WAF edge detected. This provides less protective intermediary layering than a CDN-backed deployment, but the posture is consistent with a small local business and does not, on the available evidence, indicate malicious infrastructure.

Closing Assessment

Normal browsing is proportionate, while independent merchant-identity, return-policy, and payment-protection checks should be completed before credentials or payment details are submitted.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of rinzowoodfurniture.com.

- The request stayed on rinzowoodfurniture.com. It was not redirected to another domain. CLEAR
- Registration is published under Japan Registry Services Co.,Ltd.(JPRS). CLEAR
- DNS for this domain is served by ne.jp, across 2 name servers. NOTED
- The registration is paid up to 2027-05-11. NOTED
- The earliest public archive of this site is from 2021-04-20. CLEAR
- It is hosted on SAKURA-B, from a server in JP. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about rinzowoodfurniture.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
