

Is rizeartvinnakliyat.com safe? TrustSniffer's low-trust assessment: 40/100

rizeartvinnakliyat.com

Verdict

40

OUT OF 100

LOW TRUST

rizeartvinnakliyat.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 75%.

What this site appears to be

Commercial website for a regional moving and logistics company in Turkey. Provides service descriptions, phone contacts, address, and quote/contact forms. Contains cookie consent and basic corporate information.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://rizeartvinnakliyat.com/

What rizeartvinnakliyat.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website presents itself as a Turkish regional moving and logistics company offering residential and office relocation, intercity transport, storage, insured transport, and quotation-based service bookings. Its apparent business model is to attract customers through service descriptions, telephone contact channels, and online quote forms for paid transport and storage services.

Scam/Impersonation Risk

The site's visible content is consistent with a conventional local logistics business and does not show a login page, wallet connection, hidden sensitive form, or apparent brand-impersonation pattern. However, this benign presentation is materially outweighed by confirmed external threat detections and a confirmed blacklist status. The site's real-world operator is also not independently verified, so the available content does not establish that the presented business identity is the entity controlling the domain. The resulting risk is elevated for credentials, payments, deposits, or other sensitive interactions. No separate identity contradiction or visible page-level phishing indicator was observed; the principal concern is the external reputation conflict.

EVIDENCE

- The homepage presents residential, office, intercity, storage, and insured transport services with quote and contact forms; no login form or hidden sensitive form was detected.
- External reputation assessment recorded 3 malicious detections from 60 evaluated results and a confirmed blacklist hit.
- The domain was registered on 2014-10-27 and is approximately 11.82 years old.
- Historical records show 378 archive snapshots spanning 2013-04-19 to 2026-02-10, covering 14 tracked years.

Regulatory Verification Notes

The site provides basic business information, service descriptions, contact details, and customer quotation mechanisms, but the analysed material contains no claimed licensing authority or license number. For a logistics provider, this is a disclosure gap requiring direct confirmation of the operating entity, insurance arrangements, and any transport permissions relevant to the services offered; it is not, by itself, proof of misconduct. Identity verification remains incomplete, and the external reputation conflict should be treated as more significant than the site's otherwise ordinary commercial presentation. No matching third-party broker profile was identified, but that absence is contextual only and is not a regulatory determination.

EVIDENCE

- The homepage is categorized as a local logistics/moving service and describes residential, office, intercity, storage, and insured transport.
- The analysed pages contain contact and quote forms but do not state a licensing authority or license number.
- The site's hosting infrastructure is AS47583, AS-HOSTINGER – Hostinger International Limited, CY.
- The transport encryption certificate is issued by YE1, uses DV validation, and is valid to 2026-11-18T11:53:45+00:00.

What to Verify Next

Before any payment or commitment, the proposed customer should independently confirm the company's legal name, registration, physical operating address, and applicable transport or insurance credentials through authoritative records and an offline contact route. A written quotation should identify the contracting entity, insurance coverage, cancellation terms, liability limits, and payment recipient; payment should use a protected method that supports dispute resolution. Credentials and financial information should not be submitted while the external reputation issue remains unresolved.

EVIDENCE

- The homepage provides telephone contacts, an address, and quote-request fields for name, telephone number, and service type.
- The service descriptions claim insured intercity transport and security-controlled storage, creating specific coverage and facility claims for independent confirmation.
- The site was observed operating successfully in 2 of 2 monitored runs, with no detected wallet connection, clipboard manipulation, password form, or external password submission.

Summary Verdict

The website has a conventional local-business presentation but carries a **low-trust, sensitive-interaction risk posture** because external threat intelligence identifies a confirmed reputation contradiction and the operating identity is not independently established. The available evidence is therefore insufficient to support normal sensitive engagement or a positive legitimacy determination.

Infrastructure Integrity

The site resolves directly to 145.223.89.130 in the United States and is hosted on AS47583 by AS-HOSTINGER – Hostinger International Limited, CY. No CDN or WAF edge infrastructure was identified; the valid DV TLS certificate provides transport encryption but does not establish operator legitimacy.

EVIDENCE

- Hosting resolves to 145.223.89.130 with 1 unique IP and 0 identified edge IPs.
- Infrastructure records identify AS47583 and AS-HOSTINGER – Hostinger International Limited, CY.
- TLS validation level is DV; issuer is YE1; expiry is 2026-11-18T11:53:45+00:00.

Closing Assessment

Prospective users should restrict engagement to independently confirmed, low-consequence enquiries and defer credentials, payments, deposits, and other sensitive actions until the business identity and external reputation concern have been resolved through authoritative, independent checks.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE

- The registration record withholds contact details for the operator.

Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of rizeartvinnakliyat.com.

- The request stayed on rizeartvinnakliyat.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Nics Telekomunikasyon A.S.. [CLEAR](#)
- DNS for this domain is served by natrohost.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2026-10-27. [NOTED](#)
- The earliest public archive of this site is from 2013-04-19. [CLEAR](#)
- It is hosted on AS-HOSTINGER, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about rizeartvinnakliyat.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
