

Is robbyridltrucking.com a scam? TrustSniffer's high-risk assessment: 0/100

robbyridltrucking.com

Verdict

0

OUT OF 100

CRITICAL RISK

robbyridltrucking.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Local trucking company site listing services (well-site servicing, fluid transportation), contact details, and career/email contacts. Basic corporate presence powered by GoDaddy.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What robbyridltrucking.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is the public-facing site of Robby Ridl Trucking, LLC, presenting well-site servicing and maintenance, fluid transportation, contact information, privacy information, and employment opportunities for a local commercial trucking business.

Scam/Impersonation Risk

The site's content presents a conventional trucking-company profile and the observed homepage contained no login form, hidden form, wallet connection, or external password-submission mechanism. However, this benign presentation is outweighed by confirmed external threat contradictions: the domain is listed by multiple external reputation sources, with 11 malicious and one suspicious detections, including a Tier-1 detection from Sophos. Separate abuse reports concern a shared Amazon CDN address rather than being uniquely attributed to the website, but the attribution does not remove the confirmed domain-level warning. No distinct legal-entity identity contradiction or direct brand-impersonation finding was observed; nevertheless, the available evidence supports a clearly elevated risk for sensitive interaction.

EVIDENCE

- The homepage was classified as a corporate/small-business page with no detected red-flag content, login form, hidden form, or wallet activity.
- External reputation checks recorded 11 malicious detections and 1 suspicious detection for the domain; Sophos was identified among the detecting vendors.
- The domain was listed by 2 external blacklist sources.
- The shared CDN IP 76.223.105.230 had 13 abuse reports from 11 distinct users, attributed to Amazon.com, Inc.'s shared infrastructure.

Regulatory Verification Notes

The About, homepage, contact, privacy, and career content identifies Robby Ridl Trucking, LLC and describes a standard commercial service model. The site does not state a licensing authority or registration number in the supplied pages, leaving regulatory status unclear; this is a verification gap rather than, by itself, proof of misconduct. The stated business identity remains unverified independently, and the established registration history and known registrar provide context but do not resolve the external threat findings.

EVIDENCE

- The site navigation and homepage identify “Robby Ridl Trucking, LLC” and list well-site servicing, maintenance, and fluid transportation.
- The supplied pages include About Us, Contact Us, Privacy Policy, and Career Opportunities, but no license claim, licensing authority, or registration number.
- The domain was registered on 2019-08-20 and is approximately 7.01 years old; registrar: GoDaddy.com, LLC; expiry: 2028-08-20.

What to Verify Next

Before any sensitive interaction, an independent confirmation should establish that the business name, physical address, telephone numbers, and operating authorization correspond to the intended trucking company. Licensing or commercial-registration status should be checked directly with the relevant North Dakota or industry registry, and contact channels should be confirmed through an independently sourced telephone number or offline business record rather than relying solely on the website. Until the external detections are resolved and the domain's status is independently explained, use should remain limited to non-interactive viewing; credentials, account login, and financial information should not be submitted.

EVIDENCE

- The homepage and contact content provide office, dispatch, and employment contact routes that can be compared with independent business records.
- The site contains no sensitive form, external password submission, or login workflow in the observed capture.
- Two successful behavioral runs returned stable HTTP 200 responses with no external POST activity or hidden forms.

Summary Verdict

The website presents an apparently coherent local-business identity, but the overall posture is **critically untrusted for sensitive interaction** because confirmed external threat and blacklist contradictions materially outweigh its ordinary corporate presentation. Independent operator identity remains unverified, so the site should not be treated as an established or cleared business channel.

Infrastructure Integrity

The website is delivered through CDN/WAF infrastructure, which limits direct exposure of the hosting origin and provides a mitigating layer against routine infrastructure abuse; that protection is not evidence that the site itself is legitimate. Observed infrastructure was associated with Amazon-hosted edge services, while the origin was not observable in this analysis.

Closing Assessment

The appropriate disposition is read-only use pending independent resolution of the domain-level threat findings and confirmation of the business through trusted external records; sensitive credentials and financial actions should remain off-limits.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
 - The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 13 reports on hosting IP 76.223.105.230 (Amazon.com, Inc., Content Delivery Network), 26% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
--------	------------

Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of robbyridltrucking.com.

- The request stayed on robbyridltrucking.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GoDaddy.com, LLC. [CLEAR](#)
- DNS for this domain is served by domaincontrol.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2028-08-20. [CLEAR](#)
- The earliest public archive of this site is from 2018-08-06. [CLEAR](#)
- It is hosted on AMAZON-02, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about robbyridltrucking.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
