

Is royalexchange.co.uk legit? TrustSniffer's high-trust assessment: 100/100

royalexchange.co.uk

Verdict

100

OUT OF 100

HIGH TRUST

royalexchange.co.uk appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 55%.

What this site appears to be

Official-looking homepage for Manchester's Royal Exchange Theatre, promoting current and upcoming productions, ticket booking, participation programs, visitor information, donations, memberships, venue hire, and institutional information. The page provides a physical address, telephone number, email address, charity registration, and company registration details.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is the official online presence of Manchester's Royal Exchange Theatre, presenting current and forthcoming productions, ticket booking, community-participation programmes, visitor information, accessibility services, donations, memberships, hospitality, and venue or costume hire.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behaviour, or other deceptive indicators were observed. The theatre-focused content is internally coherent, and its operating model—cultural programming funded through ticket sales, memberships, donations, partnerships, hospitality, and hire services—is consistent with the institutional identity presented. The domain's long tenure and clean external reputation materially support this conclusion.

- The homepage identifies a physical Manchester venue and publishes telephone, email, registered-charity, and company-registration details.
- The homepage's only detected form is a site-search form; no login form, hidden form, sensitive form, untrusted form destination, or external password submission was detected.
- Registered 6 October 1997 (~28.84 years old) through Internet Central Limited [Tag = NETCENTRAL], with registration valid to 6 October 2027.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no malicious safe-browsing classification, no reported IP abuse, and no signature matches; the domain is ranked 362,440 and is within the global top one million.

Regulatory Verification Notes

The site provides concrete institutional identifiers appropriate to a UK cultural organisation, including registered-charity and company-registration details. It does not present itself as a financial or investment service, and no financial-services licence claim was identified; accordingly, the absence of such a claim is not adverse. The published identity and operating disclosures provide a sound basis for routine institutional due diligence, while no third-party broker profile or adverse broker signal was matched.

- The homepage describes an established theatre operation covering performances, participation, venue visits, accessibility, donations, memberships, and commercial hire.
- The homepage publishes both charity and company identifiers alongside physical and conventional contact details.

- The site's hosting infrastructure is served from AS12488 (Krystal Hosting Ltd, GB).
- The site's transport encryption uses a YR1-issued domain-validated TLS certificate, valid until 20 October 2026.

What to Verify Next

For procurement, partnership, substantial donation, or venue-hire onboarding, the published charity and company identifiers should be matched against the relevant official registers, and payment instructions should be confirmed through an independently sourced institutional channel. Contracting parties should also confirm that the named legal entity on invoices and agreements corresponds to those published identifiers.

- The homepage solicits transactions through ticket sales, donations, memberships, hospitality, and hire services, creating ordinary reasons to validate the contracting entity for higher-value engagements.
- The homepage supplies the institutional identifiers and physical contact information needed to perform independent registry and channel confirmation.

Summary Verdict

This is a legitimate, established, and trustworthy institutional website with a coherent identity, mature operating presence, clean threat reputation, and no contradictory risk signals. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to one UK-hosted address assessed as the likely origin, with no CDN detected. The infrastructure is consistently identified and protected by valid transport encryption; these are mitigating technical controls, although infrastructure configuration alone is not proof of institutional legitimacy.

Closing Assessment

Prospective users may proceed with normal website use and routine transactions, applying standard independent entity confirmation for unusually large or contractual commitments.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of royalexchange.co.uk.

- The request stayed on royalexchange.co.uk. It was not redirected to another domain. CLEAR
- Registration is published under Internet Central Limited [Tag = NETCENTRAL]. CLEAR
- DNS for this domain is served by co.uk, across 2 name servers. NOTED
- The registration is paid up to 2027-10-06. CLEAR
- It is hosted on KRYSTAL, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about royalexchange.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
