Full analysis

Overview

Royal Fashion is a Polish online retailer presenting discounted women's, men's, and children's footwear alongside handbags, hats, and belts, with delivery across Poland, 14-day returns, BLIK payments, and promotional newsletters; its apparent business model is direct-to-consumer fashion retail.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, behavior, or external reputation signals. The homepage presents a coherent retail storefront with named products, prices, delivery timing, returns, payment information, and customer-support features. No phishing, impersonation, malware, or financial-manipulation indicators were identified, and normal account interaction is appropriate.

- The homepage identifies Royal Fashion as an ecommerce storefront selling footwear and accessories, with no detected brand-impersonation indicators.
- The site's forms were limited to ordinary retail functionality and newsletter signup; no sensitive login or externally redirected password form was observed.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.

Regulatory Verification Notes

The available pages describe consumer retail services rather than a regulated financial activity, and no regulated-service licence claim or licence number was identified. This is a scope and disclosure point, not evidence of deception. The site's established registration, clean reputation, and valid transport security support a legitimate operating posture; the registrar is home.pl sp. z o.o.

- The domain was registered on 2014-07-16 and is approximately 12.05 years old, expiring on 2028-07-16.
- The site is served through AS13335, operated by CLOUDFLARENET - Cloudflare, Inc., US.
- The TLS certificate uses issuer WE1 with DV validation and is valid through 2026-10-27.

What to Verify Next

For higher-value orders, confirm the seller's current business and returns details against the order documentation, and retain payment and delivery records. Official support channels should be confirmed through the site's own customer-service pages before resolving disputes or changing account details.

- The homepage states delivery within 24 hours and free delivery above 150 zł.

- The retail pages state a 14-day return period and support for BLIK payments.
- The site's business model is direct product sales with newsletter-based promotional retention.

Summary Verdict

Royal Fashion presents as a legitimate, established, and trustworthy ecommerce website with a low-risk content profile and no observed identity or threat contradictions. The available evidence supports normal browsing, account login, and standard transactions.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts the site, and all observed addresses were Cloudflare edge infrastructure rather than an exposed origin. This reduces direct origin exposure and is a mitigating security control, although infrastructure protection alone does not establish legitimacy.

- Observed edge addresses included 104.21.69.16 and 172.67.202.207, both on AS13335.
- The infrastructure assessment identified Cloudflare as the CDN/WAF provider and no likely origin address.

Closing Assessment

Normal shopping and account use are appropriate, with ordinary care applied to order accuracy, payment records, and post-purchase support.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about royalfashion.pl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
