Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

RTVC Play is a Spanish-language public media streaming portal presenting free Colombian films, documentaries, television series, podcasts, educational programming, children's content, and live events through the RTVC Sistema de Medios Públicos identity.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent public-service media model rather than financial solicitation, including free programming, live events, documentaries, podcasts, and educational content. The site shows no phishing indicators, sensitive forms, wallet activity, brand impersonation, or financial-deception signals; its institutional RTVC identity and content model are consistent across the available pages.

- Homepage identifies RTVC Sistema de Medios Públicos and provides substantial public-media content.
- Page analysis found zero red flags and no sensitive or externally redirected forms.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist hit.
- The domain is registered from 2015 (~10.67 years old) through GoDaddy.com, LLC.

Regulatory Verification Notes

The contact and privacy pages provide institutional information and a Colombian address, supporting the site's public-media identity. No financial or regulated investment service is presented, and no license number is claimed; this is a limited disclosure point to document for governance purposes, not evidence of deception. Registration privacy is an administrative detail rather than an identity contradiction. No broker-dataset match was identified.

- Contact and privacy pages provide official institutional contact and privacy information.
- Hosting is served from AS16509 (Amazon.com, Inc.).
- TLS certificate issued by Amazon RSA 2048 M04 (DV), valid to 2026-12-16.
- The site is ranked 488759 and falls within the global top one million domains.

What to Verify Next

For institutional due diligence, confirm the RTVC affiliation and published contact channels through an independently sourced Colombian public-sector directory, and retain the site's privacy and service disclosures for normal vendor records. If a formal procurement or distribution relationship is contemplated, confirm the applicable public-media authorization through the relevant Colombian authority.

- The homepage identifies the operating public-media system as RTVC.
- The contact page supplies institutional contact details for independent confirmation.
- The privacy page supplies the site's stated data-handling information.

Summary Verdict

RTVC Play presents as a legitimate, established, and trustworthy public-service media website. The available identity, content, technical, and reputation signals converge on a low-risk operating posture suitable for normal interaction, including account login and standard use.

Infrastructure Integrity

The site is hosted on Amazon infrastructure classified as content-delivery-network use, with valid mainstream TLS protection. This supports service resilience and reduces exposure from a single origin, but remains a mitigating infrastructure signal rather than proof of institutional identity.

Closing Assessment

Normal browsing, account access, and standard site use are appropriate; formal partnerships or regulated procurement should follow the organization’s ordinary independent verification procedures.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of rtvcplay.co.

- The request stayed on rtvcplay.co. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by awsdns-50.com, across 4 name servers. NOTED
- The registration is paid up to 2027-12-02. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [rtvcplay.co](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
