## Full analysis

### Overview

The website is Salomon Argentina's official online retail store, presenting footwear, apparel, backpacks, hydration products, and accessories for running, trail running, hiking, sportstyle, and winter sports, with direct-to-consumer purchasing supported by shipping, returns, warranty, and customer-service policies.

### Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent Salomon retail operation with named product families, visible pricing, retail policies, and no detected phishing, impersonation, malicious-content, or suspicious-behavior indicators. Its long-established registration and sustained historical continuity further support the conclusion that this is a legitimate commercial website rather than an opportunistic imitation.

- Domain registered 2013-12-11 and approximately 12.65 years old; the registration record identifies registrar nicar and owner ZAPATA SEBASTIAN NORBERTO.
- 61 archive snapshots spanning 2018–2026, covering 9 tracked years.
- The homepage is classified as an established ecommerce site with no red flags, hidden forms, wallet activity, or external network activity.

### Regulatory Verification Notes

This is a consumer sporting-goods retailer rather than a financial service, so a regulated financial licence is not expected for the stated business model. The reviewed site material includes legal, company, contact, shipping, returns, and warranty information; no regulated licence number is presented, which is a minor disclosure note rather than evidence of deception. External reputation checks were clean, and the site has an established global traffic presence.

- Hosted on AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- TLS certificate issued by YE1 with DV validation, valid to 2026-09-10.
- The homepage title identifies “Salomon Argentina | Tienda Oficial” and provides product categories, pricing, and retail policies.
- The domain is ranked within the global top one million, with a recorded rank of 495741.

### What to Verify Next

Before a significant commercial purchase, the prospective customer should confirm that the seller details and return process on the legal and contact pages match the invoice and payment documentation, and should

independently confirm delivery, warranty, and refund terms through the published official channels.

- The homepage provides shipping, returns, warranty, and customer-service policy pathways.
- The site uses a dedicated email-subscription form rather than an exposed password or credential-collection form.

Summary Verdict

The website is legitimate, established, and suitable for normal interaction, including account login and standard ecommerce use. The evidence converges on a mature, coherent retail presence with no observed scam or impersonation indicators.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer between the public service and its origin environment. All observed addresses were CDN edge servers, with no origin candidate identified during the analysis.

- Four observed edge IPs were associated with AS13335; likely origin IP count was 0.
- Hosting provider: CLOUDFLARENET – Cloudflare, Inc., US; registry: ARIN; country: US.

Closing Assessment

Normal browsing, account use, and standard purchases are appropriate, subject to ordinary checks of transaction details and applicable consumer policies.

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about salomonstore.com.ar at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
