- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Samsung Experience Stores Locator is an India-focused retail-finder website that helps visitors locate nearby Samsung stores by state, city, and locality, with store addresses, telephone numbers, opening hours, website links, and directions.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent Samsung retail-support function, with searchable physical-store listings and no login form, payment flow, investment offer, or sensitive-data collection. External reputation checks recorded no malicious or suspicious findings, and no brand-impersonation indicators were identified.

- The homepage provides state, city, and locality filters for Samsung Experience Stores.
- Store listings display addresses, telephone numbers, opening hours, and directions.
- The homepage contains one location-search form and no sensitive form or login mechanism.
- The domain was registered on 2019-12-02 and is approximately 6.67 years old; 64 archive snapshots span 2020-09-18 to 2026-05-19, covering 7 years.

Regulatory Verification Notes

The site supports retail distribution rather than presenting a financial or regulated investment service. No license claim or registration number is presented in the available page content; this is a limited disclosure note, not evidence of deception in the context of a store locator. The domain is registered through GoDaddy.com, LLC to Samsung India Electronics Pvt Ltd, and the available third-party broker dataset contains no match.

- WHOIS identifies Samsung India Electronics Pvt Ltd as the registrant organization and GoDaddy.com, LLC as registrar.
- The site is ranked 93280 in the Tranco ranking and within the global top one million.
- The site uses an OV TLS certificate issued by GeoTrust TLS RSA CA G1, valid through 2026-12-18.

What to Verify Next

For procurement or formal commercial onboarding, confirm the relevant Samsung India corporate or retail relationship through an independently sourced Samsung channel and, where required, confirm the operator's business registration with the applicable Indian registry.

- The homepage provides physical-store details that can be cross-checked against independently sourced Samsung customer-service channels.
- The site's stated function is retail store discovery, with no direct financial-service or sensitive-data workflow identified.

Summary Verdict

The website presents as a legitimate, established, and trustworthy Samsung retail-support service. Its identity, purpose, historical continuity, external reputation, and technical controls converge without contradictory signals, making normal interaction, including account login where applicable and standard use, appropriate.

Infrastructure Integrity

The website is served through Amazon infrastructure on AS16509, with AWS CDN/WAF protection and no observed origin candidate. This infrastructure reduces direct origin exposure and provides a positive mitigating control, although it is not independently proof of legitimacy.

- Hosted on AS16509 (AMAZON-02 - Amazon.com, Inc.).
- Observed edge IPs are 13.206.27.199 and 65.2.117.118, both on AS16509.
- AWS CDN/WAF protection was detected; 2 edge IPs and 0 likely origin IPs were observed.

Closing Assessment

Standard browsing and ordinary store-locator use may proceed. Formal business engagement should follow the organization's normal independent counterparty checks.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of samsungexclusivestores.in.

- The request stayed on samsungexclusivestores.in. It was not redirected to another domain. CLEAR

About this assessment

A trust score summarises the evidence TrustSniffer could collect about samsungexclusivestores.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
