

Is santemagazine.fr legit? TrustSniffer's high-trust assessment: 97/100

santemagazine.fr

Verdict

97

OUT OF 100

HIGH TRUST

santemagazine.fr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 55%.

What this site appears to be

French health magazine homepage with extensive editorial sections (health, nutrition, pregnancy, beauty, recipes), advertising consent banner and social links; clearly informational and audience-driven.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is a French health and lifestyle magazine presenting editorial content on health, medical information, nutrition, pregnancy, weight management, beauty, food, mental and sexual health, podcasts, videos, and related tools. Its apparent business model is audience-supported publishing funded through advertising, subscriptions or memberships, newsletters, and potentially sponsored content or events.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent informational-media purpose, with no detected phishing, brand-impersonation, malicious-content, or sensitive-login pattern. The available external reputation evidence is clean, and the site has an established registration history. The operator's real-world identity is not independently verified, so legitimacy should be described as apparent and evidence-consistent rather than proven. Interactive page changes and external activity are consistent with advertising and consent functionality and were not accompanied by hidden forms, wallet activity, credential capture, or other abuse patterns.

EVIDENCE

- The homepage is identified as "Santé Magazine" and contains extensive health, nutrition, pregnancy, beauty, recipe, and lifestyle editorial sections.
- The homepage contains no login form, sensitive form, hidden form, password-external form, wallet connection, or clipboard-hijacking behavior.
- The domain registration record shows creation on 2008-01-21 and an age of 18.56 years; the registrar is NAMESHIELD.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and 0 abuse reports.

Regulatory Verification Notes

The website appears to be an editorial publication rather than a financial, investment, or other regulated-service provider. No regulatory license claim, licensing authority, or license number was identified in the available site content; this is a disclosure and verification point, not evidence of fraud. The available evidence supports an established, apparently legitimate site, while independently confirming the legal operator remains appropriate before any commercial subscription or payment relationship.

EVIDENCE

- The homepage's stated function is health and lifestyle journalism, with advertising and audience-engagement features rather than a regulated financial offering.
- The available site content does not state a licensing authority or license number.
- The site is served from AS8839, SDV-AS - SDV6TM SAS, FR.
- The transport certificate is issued by RapidSSL TLS RSA CA G1, uses DV validation, and is valid to 2027-02-14 23:59:59 UTC.

What to Verify Next

Before credential or payment interactions, an independent source should confirm the publication's legal entity, official contact channels, subscription terms, cancellation and return provisions, and the payment-protection arrangements offered at checkout. Any commercial claims or sponsored health content should also be assessed against the publication's stated editorial and advertising disclosures.

EVIDENCE

- The homepage includes a privacy and advertising-consent interface that identifies personal-data processing by the site and its partners.
- The homepage links to multiple established social platforms, providing independent channels through which the publication's official presence can be cross-checked.
- The available page capture shows a content-rich editorial site with a successful HTTP 200 response and no detected phishing indicators.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for ordinary browsing and standard site interaction. The classification is strong, but it does not independently prove the real-world operator's identity.

Infrastructure Integrity

The site resolves through a direct hosting arrangement rather than a detected CDN or WAF layer, with one observed likely origin address. This is a conventional infrastructure posture and neither establishes legitimacy nor creates a material adverse finding; the valid mainstream TLS certificate provides a separate transport-security control.

Closing Assessment

Normal informational use is proportionate, while independent confirmation of the merchant identity, commercial terms, and payment protections should precede account or payment interactions.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=5

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of santemagazine.fr.

- The request stayed on santemagazine.fr. It was not redirected to another domain. CLEAR
- Registration is published under NAMESHIELD. CLEAR
- DNS for this domain is served by sdv.fr, across 2 name servers. NOTED
- The registration is paid up to 2026-09-12. NOTED
- It is hosted on SDV-AS, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about santemagazine.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
