Full analysis

Overview

Save the Children's Spanish website is a charity and donation platform presenting humanitarian aid, child protection, poverty, education, health, nutrition, volunteering, and advocacy programs. Its apparent business model is to fund these activities through one-time and recurring donations, memberships, subscriptions, grants, and institutional support.

Scam/Impersonation Risk

No contradictions were observed. The homepage has a coherent charitable purpose, identifies the organization as "Save the Children," provides donation and membership pathways, and contains no detected phishing, impersonation, malware, or other fraud indicators. The site's long, continuous history and clean external reputation materially support its legitimacy.

- The homepage presents recurring and one-time donations for children affected by emergencies, poverty, and conflict.
- The homepage provides organizational contact details, privacy consent, CAPTCHA protection, tax-benefit information, and transparency links.
- The domain was first observed on 2000-01-06 and has an authoritative age of 26.5681 years; its archive contains 1,147 snapshots across 27 tracked years, from 2000 through 2026.

Regulatory Verification Notes

The site presents legal registration, privacy information, tax-benefit information, transparency resources, ethical standards, safeguarding material, and governance content. The reviewed material does not present a financial-services license number; this is a documentation point for confirmation where relevant, not evidence of deception. The site's established charitable operating model, clean reputation, and sustained public presence support a legitimate identity.

- The homepage links to "Transparencia y buen gobierno," "Código ético y Salvaguarda," privacy information, and legal registration details.
- The site's content identifies humanitarian and child-protection programs in Spain and internationally.
- The site is hosted on AS16276 (OVH - OVH SAS, FR).
- TLS uses issuer YR2, validation level DV, and is valid through 2026-10-24.

What to Verify Next

For institutional or high-value engagement, confirm the organization’s current legal registration and donation-treatment details through the relevant Spanish public registry, and independently confirm official contact channels before establishing recurring payment arrangements.

- The homepage provides legal-registration, tax-benefit, privacy, and organizational-contact information.
- The navigation exposes dedicated transparency, governance, ethical-code, safeguarding, and press resources.
- The donation interface supports both recurring and one-time contributions.

Summary Verdict

The website presents as a legitimate, established, and trustworthy charitable organization with no observed scam or impersonation contradictions. Normal interaction, including account login and standard site use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with the observed edge address associated with AS16276; no origin candidate was identified. This reduces direct origin exposure and is a mitigating infrastructure characteristic, although it is not independently proof of organizational legitimacy.

Closing Assessment

Standard browsing, account interaction, and charitable engagement are appropriate, subject to ordinary confirmation of payment details for material or recurring contributions.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about savethechildren.es at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
