Full analysis

Overview

Save the Children Italia's website presents the Italian organization's child-protection, education, health, humanitarian, advocacy, and fundraising work. Its apparent business model is nonprofit support through one-time, recurring, legacy, corporate, and major donations, supplemented by campaigns, petitions, newsletters, news, and educational resources.

Scam/Impersonation Risk

No contradictions were observed. The homepage is consistent with an established charitable organization: it identifies Save the Children, describes programs in Italy and internationally, provides donation-allocation information, and offers mainstream payment methods. The site does not exhibit brand-impersonation, phishing, cryptocurrency, hidden-form, wallet-drainer, or malicious-content indicators. External reputation checks found no malicious or suspicious detections.

EVIDENCE

- Domain registration: 2000-06-23; age 26.12 years.
- Web archive: 1,471 snapshots spanning 2001–2026, covering 26 years.
- Homepage: no red flags; charity/nonprofit classification with established maturity.
- Homepage: two forms limited to donation/payment and newsletter subscription.

Regulatory Verification Notes

The site's legal and organizational material identifies Save the Children Italia Onlus and provides contact, donation, payment, and allocation information. The stated activity is charitable rather than financial-services provision; no separate financial-services license is claimed in the supplied material. That absence is a regulatory-transparency point for registry confirmation, not evidence of deception. A contextual broker-data check found no matching entity.

EVIDENCE

- Registration: Upprovider S.r.l.; organization recorded as Save the Children Italia Onlus.
- Hosting: AS12637, SEEWEB - SEEWEB s.r.l., IT.
- TLS: GeoTrust TLS RSA CA G1, OV validation, subject organization Save the Children Italia Onlus, valid to 2026-09-24.
- Homepage: secure payment options include PayPal, Satispay, and credit card.

What to Verify Next

For formal onboarding or institutional funding, confirm the organization's legal status and any applicable charitable registration through the relevant Italian public registry, and independently confirm official contact and payment channels using contact details published through established organizational sources.

EVIDENCE

- About/legal pages: organizational identity and statutory information.
- Contact page: official communication channels.
- Donation flow: payment and donation-allocation information.

Summary Verdict

The website presents as a legitimate, established, and trustworthy nonprofit entity with coherent identity, mature content, clean reputation signals, and no observed impersonation or fraud contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed traffic associated with AS12637 and SEEWEB; the infrastructure provides a meaningful mitigating control for exposure and service protection.

Closing Assessment

Standard browsing, login, donations, and ordinary account actions are appropriate, subject to normal organizational transaction and record-keeping practices.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about savethechildren.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
