- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1996.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Save the Children US is an established nonprofit charity website presenting humanitarian programs, child-welfare initiatives, impact information, and secure one-time or recurring donation options to support children worldwide.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, charitable purpose, page content, or external reputation signals. The homepage presents a coherent nonprofit model, identifies the organization as a 501(c)(3), and provides mission, program, contact, financial, and charity-rating information. Normal interaction with the site is appropriate.

- The homepage identifies Save the Children US and presents child-welfare, health, education, emergency-response, and donation content.
- External reputation checks recorded zero malicious or suspicious detections, no blacklist hit, and zero abuse reports.
- The domain was registered in 1995 and is approximately 30.62 years old.
- Historical coverage contains 5,000 archive snapshots spanning 1996–2021, with 26 years tracked.

Regulatory Verification Notes

The site provides legal-identity, financial-transparency, leadership, charity-rating, and contact information, and states that it is a 501(c)(3) organization. No separate financial-services licensing claim is relevant to the stated charitable donation model; any regulated-party review should independently confirm the organization's nonprofit status and applicable fundraising permissions.

- The homepage links to financial information, leadership and trustees, charity ratings, and organizational information.
- The site's stated business model is charitable fundraising through one-time and recurring donations, gifts, and related campaigns.
- The domain is registered through Network Solutions, LLC.
- The site is served from AS13335 (Cloudflare); its TLS certificate is issued by WE1 at DV validation level and is valid to 2026-10-14.

What to Verify Next

For institutional or high-value engagement, confirm the stated nonprofit status through the applicable official registry and validate donation instructions using contact details published through an independently obtained official channel. Review the organization’s financial disclosures and campaign-specific terms before approving restricted or recurring funds.

- The site provides financial-information and charity-rating sections for due diligence.
- The donation flow supports one-time and monthly contributions and states that donations are processed securely.
- The contact page and organizational information provide channels for confirming campaign details.

Summary Verdict

The website presents a legitimate, established, and trustworthy charitable operation with strong identity, content, historical, reputation, and technical-supporting signals. Its overall posture supports ordinary browsing, account interaction where applicable, and standard donation use.

Infrastructure Integrity

Cloudflare provides the site’s CDN and WAF protection, with observed traffic terminating at Cloudflare edge infrastructure rather than exposing the origin server directly. This reduces direct origin exposure and is a mitigating infrastructure characteristic, not independent proof of legitimacy.

Closing Assessment

Normal interaction and standard charitable use are appropriate, with routine nonprofit and campaign due diligence retained for regulated or high-value organizational decisions.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of savethechildren.org.

- The request stayed on savethechildren.org. It was not redirected to another domain. CLEAR
- Registration is published under Network Solutions, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED

- The registration is paid up to 2028-12-27. CLEAR
- The earliest public archive of this site is from 1996-12-29. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about savethechildren.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
