Full analysis

Overview

Save the Student is a UK-focused student information website presenting free guidance on finance, banking, discounts, jobs, accommodation, bills, shopping, and study, supported by disclosed affiliate, advertising, sponsorship, and commercial-referral relationships.

Scam/Impersonation Risk

No contradictions were observed. The site's consistent informational purpose, established operating history, clean external reputation, absence of phishing or malware indicators, and lack of suspicious account or payment collection behavior support a legitimate identity rather than impersonation. Normal interaction, including account login where applicable, is appropriate.

- The homepage identifies the service as "Save the Student" and presents student-money, discounts, jobs, and lifestyle guidance.
- The domain was registered in 2007 and is approximately 18.69 years old.
- The site has 1,064 archive snapshots spanning 2008–2026, covering 19 tracked years.
- External checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site provides company registration, a registered office, contact details, editorial disclaimers, and affiliate disclosures. No specific financial-services license is claimed; this is a regulatory-transparency point relevant to the site's informational and referral-based model, not evidence of deception. The available reputational context contains no broker match or adverse identity signal.

- The homepage and legal/contact material disclose the editorial and affiliate basis of the business.
- The site's hosting is identified as AS13335, operated by Cloudflare, Inc.
- TLS is issued by YE2 at DV validation level and is valid through 2026-09-17.
- The site has an established global traffic footprint within the top one million websites.

What to Verify Next

For any regulated financial referral or commercial offer reached through the site, the relevant provider's authorization should be confirmed independently with the applicable UK registry. Corporate details and official contact channels should likewise be cross-checked against independent records before a material financial commitment.

- The site presents student-finance and banking information alongside commercial referrals.
- The site provides legal, editorial, affiliate, contact, and registered-office disclosures.
- The site's business model is informational rather than a claimed licensed financial-services operation.

Summary Verdict

The website presents a legitimate, established, and trustworthy posture with strong convergence across identity, content, history, reputation, and technical signals. No evidence indicates impersonation, phishing, malicious distribution, or deceptive collection of sensitive information.

Infrastructure Integrity

Cloudflare CDN and WAF protection provide a mitigating layer, with observed traffic served through Cloudflare edge infrastructure and the origin server not exposed in this analysis.

Closing Assessment

Standard browsing, account interaction, and ordinary use are appropriate; material financial decisions should remain subject to the normal independent checks applied to any referral-based information service.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about savethestudent.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
