Full analysis

Overview

SBS Automóveis is a Portuguese-language local automobile dealership website presenting used and new vehicle inventory, prices, vehicle specifications, contact channels, vehicle-sale services, and financing inquiries. Its apparent business model is conventional vehicle sales and lead generation for a small or medium-sized dealership.

Scam/Impersonation Risk

No scam, phishing, impersonation, or other contradictory signals were observed. The homepage presents a coherent dealership model with vehicle listings, prices, mileage, model years, transmission details, location information, and a contact-message form rather than a credential-harvesting or unusual payment flow. Available external reputation checks reported no malicious or suspicious result, and the site's observed behavior showed no login form, hidden form, wallet connection, cloaking, clipboard manipulation, or suspicious script activity. The domain has also maintained registration continuity over many years, supporting an established-site interpretation, although this does not independently verify the real-world operator.

EVIDENCE

- The homepage identifies “SBS Automóveis” and displays vehicle inventory, prices, model details, mileage, model years, and transmission information.
- The homepage contains one contact-message form and no login or password-submission form.
- Domain registered 2012-04-27 (~14.33 years old).
- Web-archive coverage dated 2013-09-29 to 2025-03-17 (13 years tracked); no suspicious repurposing or semantic drift was identified.

Regulatory Verification Notes

The site appears to operate as a local automobile retailer rather than a platform presenting itself as a regulated financial or investment service. The supplied site content includes navigation for “Sobre nós,” “Estoque,” “Contato,” “Venda seu veículo,” and privacy information, but does not present a licensing authority or license number. That is a disclosure gap requiring ordinary business verification, not evidence of a scam. A registration record identifies “Lava Rapido SS Ltda” as the domain owner; the available evidence does not independently establish that this entity is the current operator of SBS Automóveis. The available broker-reputation context contains no match.

EVIDENCE

- The homepage provides business sections for About, inventory, contact, vehicle sale, and privacy information.
- No licensing authority or license number is displayed in the supplied site content.
- Domain registration record lists the owner as Lava Rapido SS Ltda, with an expiration date of 2027-04-27.
- Hosted on AS31898 (ORACLE-BMC-31898 – Oracle Corporation, US); TLS certificate issued by YR1 (DV), valid to 2026-10-16T01:15:08+00:00.

What to Verify Next

Before a credential or payment interaction, independently confirm that the dealership’s legal identity and business registration correspond to the entity conducting the transaction. For any vehicle purchase, financing arrangement, deposit, or trade-in, verify the vehicle identification and title status, obtain written commercial terms, confirm return or cancellation conditions, and use payment protections appropriate to the transaction. Contact channels should also be confirmed through an independent route before sensitive information or funds are exchanged.

EVIDENCE

- The About, Contact, vehicle-sale, and financing pathways provide the appropriate pages for matching the commercial counterparty to independent business records.
- The inventory and vehicle-detail pages provide the transaction-specific information that should be reconciled with physical inspection and documentary records.
- The contact-message workflow is suitable for initiating inquiries but does not, by itself, establish the legal identity of the counterparty.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate, low-risk commercial website. No contradictory signals were observed, and the overall trust posture is high; however, the available evidence does not independently verify the real-world operator identity.

Infrastructure Integrity

The site is hosted on Oracle Corporation infrastructure in the United States, with a directly resolved hosting address and no detected CDN or WAF layer. The valid domain-validated TLS certificate provides transport protection, while the absence of an identified edge-protection layer is primarily an architectural characteristic rather than evidence of malicious activity.

EVIDENCE

- Hosting provider: ORACLE-BMC-31898 – Oracle Corporation, US; ASN AS31898; resolved IP 192.185.215.51.
- One unique IP was observed, with zero edge IPs and one likely origin IP.
- TLS validation level: DV; issuer YR1; validity end: 2026-10-16T01:15:08+00:00.

Closing Assessment

Ordinary browsing and dealership inquiries are proportionate to the assessed posture, while independent merchant-identity, transaction-documentation, return-policy, and payment-protection checks should precede credential submission or payment.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about sbsautomoveis.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
