Key findings

- Automated classification: Not Scam.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is Schäfer Shop, a German B2B and consumer ecommerce retailer presenting office furniture, office supplies, warehouse equipment, technology, logistics products, and workplace-planning services through a structured catalogue and sales platform.

Scam/Impersonation Risk

No contradictory identity, phishing, impersonation, or malicious-content signals were observed. The homepage presents a coherent retail business model with product categories, pricing, customer-account functionality, contact facilities, and service information; normal account login and standard shopping activity are appropriate.

EVIDENCE

- The homepage contains extensive office, warehouse, workplace, technology, and logistics product navigation with a coherent ecommerce structure.
- Page analysis found no fraud indicators, brand-impersonation indicators, or suspicious forms.
- External reputation checks recorded zero malicious and zero suspicious detections, with the domain within the global top one million by traffic.
- Interactive testing completed two successful runs without wallet-connect, wallet-drainer, clipboard-hijacking, cloaking, or hidden-form activity.

Regulatory Verification Notes

Schäfer Shop is presented as a commercial retailer rather than a financial or investment service. No regulated-license claim or registration number is evidenced in the supplied page material; this is a limited disclosure point for procurement verification, not evidence of deception. The available identity and infrastructure signals otherwise support a stable, established commercial operation.

EVIDENCE

- The homepage identifies a retail business serving office, warehouse, and workplace procurement needs.
- The site is served from AS24940, HETZNER-AS / Hetzner Online GmbH, Germany.
- The site uses a valid DV TLS certificate issued by YR2, valid through 2026-09-24.
- No matching third-party broker record was identified.

What to Verify Next

For material commercial purchases, confirm the seller’s formal legal notices, invoicing details, returns terms, and payment instructions against an independent business source. Contact channels should be validated through the site’s published mechanisms before relying on them for sensitive account or order matters.

EVIDENCE

- The homepage provides customer login, password recovery, and account-management functions.
- The homepage provides a contact form, live chat, and a published service hotline.
- The site supports newsletter signup in addition to account and contact forms.

Summary Verdict

The overall posture is that of a legitimate, established, trustworthy website suitable for normal interaction and standard commercial use. No observed evidence indicates scam, impersonation, phishing, or malicious intent.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, and the observed address was an edge endpoint rather than an exposed origin. This provides a meaningful protective control against direct origin exposure, although infrastructure protection alone is not proof of legitimacy.

Closing Assessment

Normal account use and standard transactions are appropriate, with routine commercial checks remaining proportionate for significant purchases.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about schaefer-shop.de at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
