Full analysis

Overview

Sculpt SA is a South African online shapewear retailer presenting bras, bodysuits, bottoms, activewear, waist trainers, swimwear, dresses, and related apparel through a direct-to-consumer ecommerce storefront.

Scam/Impersonation Risk

No scam, phishing, impersonation, or identity contradiction was observed. The homepage presents a coherent retail model with product pricing, customer reviews, shipping information, a 30-day fit guarantee, easy exchanges, secure-checkout messaging, and an email-signup form without sensitive credential collection. Historical evidence shows continuity rather than suspicious repurposing, and the isolated external reputation signal is not corroborated by confirmed blacklist or phishing findings.

EVIDENCE

- The homepage identifies Sculpt SA as an ecommerce retailer and displays apparel categories, prices, reviews, shipping information, and customer policies.
- The homepage advertises “30-Day Fit Guarantee,” “Easy Exchanges,” and “Safe & Secure Checkout.”
- The domain was registered on 2023-08-03 and is approximately 3 years old.
- Archive records contain 19 snapshots spanning 2024-04-02 to 2025-10-07, covering 2 tracked years.

Regulatory Verification Notes

The site presents ordinary consumer apparel commerce rather than a financial or otherwise visibly regulated service. Its available storefront content includes shipping, returns, fit, and contact information, but no regulatory license or registration number is presented; this is a limited disclosure point for procurement due diligence, not evidence of deception. No relevant broker or third-party business match was identified.

EVIDENCE

- The homepage provides shipping, returns, fit-guarantee, and business-contact information.
- Domain registration is recorded through GoDaddy.com, LLC.
- The site is served through AS13335, Cloudflare, Inc.
- Its TLS certificate is issued by YE1 using domain validation and is valid to 2026-09-13.

What to Verify Next

For formal supplier onboarding, confirm the operating entity and applicable consumer-commerce registration requirements through the relevant South African official sources. Review the site’s shipping, returns, and terms pages before placing material orders, and independently confirm the published contact channels if a transaction requires escalation.

EVIDENCE

- Shipping and returns information is available within the storefront policy content.
- Fit and exchange commitments are stated on the homepage.
- Business contact details are presented as part of the site's customer-service information.

Summary Verdict

The website has a legitimate, established ecommerce profile and no observed contradiction indicating scam or impersonation activity. Its content, behavior, and technical posture support normal interaction, including account login and standard use.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, with the observed edge address 23.227.38.32 on AS13335; the origin server was not observable. This reduces direct origin exposure and is a mitigating infrastructure characteristic, not proof of legitimacy.

Closing Assessment

Normal shopping, account access, and standard checkout are appropriate, subject to routine consumer and supplier due diligence for material transactions.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about sculptstore.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
