

Is sescsp.org.br legit? TrustSniffer's high-trust assessment: 97/100

sescsp.org.br

Verdict

97

OUT OF 100

HIGH TRUST

sescsp.org.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 55%.

What this site appears to be

Official-looking homepage for Sesc São Paulo featuring institutional navigation, program highlights, services (credencial, courses, pools, clinics), editorial content and links to apps and publications. No obvious malicious or financial-yield content on this page.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://www.sescsp.org.br/>

What sescsp.org.br served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website is the institutional online presence of Sesc São Paulo, presenting cultural, educational, recreational, health, tourism, publication, ticketing, and social-program services through an established public-facing information and service model.

Scam/Impersonation Risk

No contradictions, phishing indicators, malicious detections, or apparent brand-impersonation signals were observed. The homepage presents a coherent institutional structure covering Sesc São Paulo programs, credentials, courses, libraries, events, clinics, tickets, and related services rather than investment solicitation or financial-yield products. The registration record names a SESC São Paulo administrative entity, but this is not treated as independent proof that the current real-world operator has been verified. Minor behavioral observations, including external network activity and console errors, did not coincide with hidden forms, credential harvesting, wallet activity, cloaking, or other abuse patterns.

EVIDENCE

- The homepage title and institutional navigation identify the site as “Sesc São Paulo” and link to programs, units, services, publications, and contact functions.
- The domain registration record shows registration on 2001-06-29 and an age of 25.15 years.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no phishing or blacklist listing; the site was ranked 42632 and within the global top 1 million.
- The homepage analysis recorded no red flags, no login form, no sensitive form, and no suspected brand impersonation.

Regulatory Verification Notes

The available evidence is consistent with an established institutional services website, not a financial or investment platform. The homepage links to About, CNPJ consultation, terms of use, privacy, cookies, procurement, employment, and contact information, providing meaningful institutional context; however, the sampled content does not present a licensing number or regulator reference. That is a transparency and verification point for applicable services, not evidence of a scam. No adverse broker-reputation match was identified, although third-party reputation context does not establish legal status or regulatory authorization.

EVIDENCE

- The homepage navigation includes “Sobre o Sesc,” “Consultar o CNPJ,” “Licitações e Contratações,” “Política de privacidade,” “Termos de Uso,” and “Fale Conosco.”
- The site is served from AS16509, Amazon.com, Inc. (AMAZON-02), US.
- The transport certificate is issued by Amazon RSA 2048 M04, uses DV validation, and is valid to 2026-11-19T23:59:59+00:00.
- The page content classifies the business model as cultural, educational, and social services funded through institutional services, ticketing, and public funding rather than user investment.

What to Verify Next

Before credential or payment interactions, independently confirm that the relevant Sesc São Paulo entity and the specific service are represented through an official institutional channel. For purchases or bookings, review the applicable terms, cancellation or return conditions, and payment-protection arrangements; where a regulated activity is ever presented, confirm any applicable authorization directly with the relevant registry.

EVIDENCE

- The homepage provides direct navigation to institutional information, CNPJ consultation, terms, privacy, cookies, ticketing, the Sesc store, and contact services.
- The sampled homepage contains no sensitive form, login form, or untrusted form destination requiring immediate credential submission.
- The site presents service categories and program information that can be matched against independently obtained institutional information before a transaction.

Summary Verdict

The overall posture is **high trust and low risk**, with available evidence consistent with an established, apparently legitimate institutional website. No scam, phishing, impersonation, or other contradicting signals were observed, while the real-world operator connection remains independently unverified.

Infrastructure Integrity

The website is protected by a CDN/WAF arrangement, and the two observed IP addresses were CDN edge servers rather than identified origin candidates. This provides a mitigating layer against direct origin exposure, but remains an infrastructure protection signal rather than proof of organizational legitimacy.

Closing Assessment

Ordinary informational use appears proportionate; credential or payment actions should follow routine independent confirmation of the relevant entity, service terms, and payment protections.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of sescsp.org.br.

- The request stayed on sescsp.org.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by azure-dns.com, across 4 name servers. NOTED
- The registration is paid up to 2033-06-29. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about sescsp.org.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
