## Key findings

---

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

## Full analysis

---

### Overview

This website is a Brazilian consumer-finance news portal presenting coverage of credit, banks, government benefits, taxes, lotteries, cryptocurrencies, and economic news, alongside informational tools and calculators; its apparent business model is editorial publishing supported by advertising, sponsored content, affiliate activity, and media partnerships.

### Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent editorial identity under the “Seu Crédito Digital” name, with finance-news categories and consumer information rather than a deceptive service interface. It contains no login form, sensitive data-collection form, hidden form, wallet connection, or observed brand-impersonation indicator. External reputation checks found no malicious or suspicious detections, and no phishing or impersonation signal was identified. The domain’s established registration history further supports continuity of the website identity.

#### EVIDENCE

- Homepage: identifies the service as “Seu Crédito Digital” and presents sections for banks, credit, benefits, INSS, FGTS, taxes, lotteries, and financial news.
- Homepage interaction review: 0 forms detected, with no sensitive form, external password form, hidden form, or wallet-provider activity.
- External reputation telemetry: 0 malicious detections, 0 suspicious detections, and no detected phishing or brand-impersonation match.
- Domain registration telemetry: Registered 2017-06-19 (~9.15 years old).

### Regulatory Verification Notes

The site operates as an informational media property rather than presenting itself as a bank, broker, lender, or investment platform. Its content covers topics such as credit, government benefits, exchange rates, and cryptocurrency mentions, while the stated monetization model includes advertising, sponsored content, affiliate links, and media-kit partnerships. No financial-services license claim or license number is presented in the reviewed material; this is a disclosure item for verification where a specific commercial recommendation or regulated service is involved, not evidence of impersonation or fraud. The site’s transport and hosting telemetry are consistent with a professionally operated public website.

#### EVIDENCE

- Homepage: titled “Seu Crédito Digital | Bancos, Crédito e Programas Sociais,” with editorial coverage of personal finance, banking, credit, and government benefits.
- Site business-model material: describes editorial publishing with advertising, sponsored content, affiliate links, and media-kit partnerships.
- Hosting telemetry: Served from AS13335 (Cloudflare, Inc., US).
- TLS telemetry: Certificate issued by WE1, validation level DV, valid to 2026-10-13.

#### What to Verify Next

For any decision involving credit, benefits, rates, or eligibility, the relevant article should be cross-checked against the current primary-source information from the applicable bank, government body, or service provider. Where sponsored or affiliate content influences a commercial decision, the applicable partnership and disclosure terms should be reviewed. If the website later offers a regulated financial product directly, the responsible entity and licensing status should be confirmed with the relevant official registry.

#### EVIDENCE

- The homepage publishes time-sensitive financial and government-benefit information, making current-date and primary-source confirmation appropriate.
- The stated monetization model includes sponsored and affiliate activity, supporting review of commercial disclosures.
- The reviewed material characterizes the service as editorial and informational rather than as a directly regulated financial institution.

#### Summary Verdict

The website presents a legitimate, established, high-trust posture with strong convergence across its identity, content, technical, and reputation signals. No scam, phishing, impersonation, or other contradictory signal was observed, and normal interaction—including account login and standard use where available—is appropriate.

#### Infrastructure Integrity

The website is protected by Cloudflare’s CDN and WAF, with observed traffic terminating on Cloudflare edge infrastructure rather than a directly exposed origin. This provides a meaningful mitigation against direct origin exposure and common web-layer abuse, although protective infrastructure is a security control rather than independent proof of legitimacy.

#### Closing Assessment

Normal browsing and standard interaction are appropriate; financial decisions based on published information should remain aligned with the latest terms and dates issued by the relevant primary institution.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

#### What the analysis found

No rule findings contributed to this verdict.

## Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 55/100     |
| Identity verification confidence | 60%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of [seucreditodigital.com.br](#).

- The request stayed on [seucreditodigital.com.br](#). It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by [cloudflare.com](#), across 2 name servers. [NOTED](#)
- The registration is paid up to 2031-06-19. [CLEAR](#)
- It is hosted on [CLOUDFLARENET](#), from a server in US. [NOTED](#)

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about [seucreditodigital.com.br](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
