Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2020.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Happy Casa Store is an established Italian ecommerce storefront presenting garden and outdoor furniture—including sets, tables, chairs, benches, and loungers—for online retail purchase through a Shopify-based shopping experience.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malware, or identity-contradiction signals were observed. The homepage presents a coherent retail business model, with no sensitive forms, wallet-connect behavior, deceptive financial offers, or suspicious brand borrowing; checkout functionality is associated with Shopify and PayPal. The site's historical presence also supports continuity rather than suspicious repurposing.

- The homepage describes garden and outdoor furniture sales, including tables, chairs, benches, and sun loungers.
- The homepage contains no login or sensitive-data form and no detected impersonation or phishing indicators.
- The domain was registered in 2008 and is approximately 18.04 years old.
- Archive records contain 153 snapshots spanning 2020–2026, covering 7 tracked years.

Regulatory Verification Notes

The site operates as a consumer-goods retailer rather than a regulated financial service, so financial licensing is not implicated by the observed business model. Registration information identifies happy casa store Srl and Aruba s.p.a.; any registration privacy is an administrative detail, not an identity contradiction. The site provides cookie and privacy controls and uses established payment functionality, although corporate and regulatory disclosures should be confirmed if required for a particular transaction or jurisdiction.

- The registration record lists Aruba s.p.a. as registrar and happy casa store Srl as the organization.
- The site's hosting endpoint is served from AS13335 (Cloudflare).
- TLS is issued by YE2 using domain validation (DV), valid through 2026-10-30.
- The homepage includes Cookiebot consent controls and links to cookie-policy information.

What to Verify Next

For institutional onboarding or higher-value procurement, confirm the seller's current corporate details and applicable consumer-commerce obligations through the relevant Italian registry and retain the site's published terms and order records. Confirm official support and contact channels through an independent corporate source before initiating an unusual payment or dispute.

- The homepage identifies the business as an online household and outdoor-goods retailer.
- The storefront provides standard ecommerce checkout functionality through Shopify and PayPal.
- The site links to related Happy Casa properties and established social platforms including YouTube and Facebook.

Summary Verdict

The website presents as a legitimate, established, and trustworthy ecommerce business with a coherent identity, stable operation, clean reputation signals, and no observed contradiction-based indicators. Normal interaction, including account login and standard purchasing activity, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer for public exposure, while infrastructure records also associate the origin-side hosting posture with Aruba S.p.A. on AS31034. This configuration is consistent with ordinary ecommerce hosting and does not itself establish legitimacy.

Closing Assessment

Standard browsing, account use, and purchases are appropriate; institutional users should retain ordinary transaction records and apply their normal supplier-onboarding controls.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of shop.happycasastore.it.

- The request stayed on shop.happycasastore.it. It was not redirected to another domain. CLEAR
- Registration is published under Aruba s.p.a.. CLEAR
- DNS for this domain is served by arubadns.cz. NOTED

- The registration is paid up to 2026-07-22. NOTED
- The earliest public archive of this site is from 2020-09-19. CLEAR
- It is hosted on CLOUDFLARENET, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shop.happycasastore.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
