

# Is shopcaterpillar.cl legit? TrustSniffer's high-trust assessment: 100/100

shopcaterpillar.cl

## Verdict

100

OUT OF 100

HIGH TRUST

shopcaterpillar.cl appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-03 by automated analysis. Classification confidence 75%.

What this site appears to be

Spanish-language Chilean ecommerce homepage for CAT/Caterpillar footwear, clothing, and accessories. It presents extensive product catalogs and prices, promotional discounts, installment payments, nationwide shipping, store pickup, returns, order tracking, customer-support links, privacy and legal policies, social channels, and the operator address for Forus S.A.

## Evidence status and limitations

## Key findings

---

- Automated classification: Not Scam.
- Public web-archive history exists since 2013.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

## Full analysis

---

### Overview

The website is the Chilean CAT/Caterpillar ecommerce storefront, offering footwear, apparel, luggage, and accessories through ordinary retail transactions supported by visible prices, promotional discounts, interest-free instalments, nationwide delivery, store pickup, returns, and order tracking.

### Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing indicators, or conflicting legal identities were observed. The site presents a mature retail journey rather than an abuse-oriented façade: its extensive product catalogue, customer-service paths, fulfilment policies, social presence, and consistently benign interaction behaviour align with its stated commercial purpose. Its long and continuous historical footprint further supports the conclusion that this is an established, legitimate storefront rather than a recently deployed imitation.

- The homepage identifies itself as the official CAT Chile store and displays priced product listings across footwear, clothing, bags, and accessories.
- Domain history extends approximately 13.19 years; 371 archive snapshots span 27 May 2013–29 June 2026, covering 14 tracked years with no detected repurposing or semantic drift.
- Reputation checks recorded no malicious or suspicious detections, no phishing finding, and no external blacklist finding for the assessed domain.
- Homepage interaction testing found no hidden forms, credential redirection, cloaking, wallet activity, clipboard manipulation, or untrusted outbound form destination.

### Regulatory Verification Notes

The site identifies Forus S.A. as its local operator and provides an office address together with privacy, terms, dispatch, returns, warranty, invoice, and customer-support resources. This is substantive corporate and consumer-protection disclosure for a conventional Chilean retailer. No regulated financial service is offered and no licence claim is made; consequently, the absence of a financial-services licence is not anomalous, although the supplied evidence does not establish an independently verified corporate registration record. No matching broker profile was identified, but that is immaterial to the site's retail business and is not a legal or regulatory judgment.

- The homepage attributes operation of the store to Forus S.A. and publishes a local operator address.
- The site navigation exposes dedicated privacy, terms and conditions, dispatch, returns, withdrawal, warranty, invoicing, store-location, and help resources.
- The site's transport encryption uses a DV certificate issued by YE1, valid to 24 October 2026.

- The hosting artifact is served from AS13335, identified as CLOUDFLARENET — Cloudflare, Inc., US.

**What to Verify Next**

For institutional onboarding, the appropriate due-diligence steps are to confirm the legal particulars of Forus S.A. against the relevant Chilean corporate and tax records, reconcile settlement instructions and merchant descriptors with that entity, and confirm official customer-service channels through independently sourced corporate information. These are routine counterparty controls rather than responses to detected fraud.

- The homepage supplies an operator identity and address that can be reconciled against official Chilean records.
- The checkout proposition includes interest-free instalments, making confirmation of the named payment processor and merchant descriptor relevant to payment-control review.
- The site provides store, contact, help, invoice, and order-tracking pathways that support independent operational verification.

**Summary Verdict**

The website is a legitimate, established, and trustworthy ecommerce operation. Its identity, commercial content, historical continuity, clean external reputation, and benign observed behaviour converge without contradiction, supporting normal customer and enterprise interaction.

**Infrastructure Integrity**

Cloudflare CDN/WAF protection fronts the website, with the observed address belonging to an edge server and no origin-server candidate exposed during the assessment. This reduces direct origin exposure and provides a mainstream protective layer, although infrastructure protection is appropriately treated as mitigation rather than standalone proof of legitimacy.

**Closing Assessment**

Normal browsing, account login, purchases, and standard account actions are appropriate, subject to routine payment and counterparty controls proportionate to the transaction value.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

**What the analysis found**

No rule findings contributed to this verdict.

**Identity verification**

|                                  |        |
|----------------------------------|--------|
| Status                           | LIKELY |
| Identity score                   | 79/100 |
| Identity verification confidence | 78%    |

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of shopcaterpillar.cl.

- The request stayed on shopcaterpillar.cl. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2013-05-27. CLEAR
- It is hosted on CLOUDFLARENET, from a server in CA. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about shopcaterpillar.cl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
