

Is shopch.jp legit? TrustSniffer's high-trust assessment: 90/100

shopch.jp

Verdict

90

OUT OF 100

HIGH TRUST

shopch.jp appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 55%.

What this site appears to be

Japanese televised shopping channel website (Shop Channel) showing product catalogs, prices, discounts, and daily program schedule. Provides account/login and shopping features for consumers.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website is a Japanese televised-shopping and e-commerce service presenting product catalogs, prices, promotions, customer reviews, and a daily broadcast schedule across beauty, fashion, jewelry, home, electronics, food, travel, and lifestyle categories. Its apparent business model is consumer retail supported by televised commerce, online ordering, memberships, account access, and payment collection for physical goods.

Scam/Impersonation Risk

No contradictions were observed. The available evidence shows no phishing, impersonation, or malicious-content indicators, and the site's presentation is consistent with a functioning retail platform rather than a deceptive investment, cryptocurrency, or credential-harvesting service. Some dynamic-script and network-activity heuristics were recorded during interaction, but there were no hidden sensitive forms, cloaking, wallet behavior, clipboard activity, or suspicious brand-impersonation findings; in context, those observations do not displace the low-risk assessment.

EVIDENCE

- The homepage presents a coherent televised-shopping storefront with product categories, prices, promotions, rankings, and a program schedule; page-level review recorded no red flags.
- Interactive testing recorded no hidden forms, password submissions to external destinations, wallet connections, wallet-drainer behavior, or cloaking.
- External reputation checks recorded 0 malicious detections and 0 suspicious detections; the phishing-status check was false.
- The site was recorded at traffic rank 9602 and within the top 1,000,000 sites.

Regulatory Verification Notes

Available evidence is consistent with an established, apparently legitimate retail website, but the real-world operator identity is not independently verified. The homepage material does not present a licensing claim or license number; for a consumer-goods retailer, this is best treated as a disclosure and merchant-identity verification point rather than evidence of a scam. The certificate identifies Jupiter Shop Channel Co., Ltd. as the subject organization, but that technical association does not independently prove the operator's legal identity. No matching broker-reputation record was identified.

EVIDENCE

- Domain registration: 2001-07-31; approximately 25.06 years old, with expiration recorded as 2027-07-31.
- The site's transport encryption uses a DigiCert EV RSA CA G2 certificate with EV validation, valid through 2026-11-17T23:59:59+00:00.
- The certificate subject organization is "Jupiter Shop Channel Co., Ltd."
- The homepage provides consumer-commerce and account functions but does not show a licensing claim or license number in the supplied content.

What to Verify Next

Before credential or payment interactions, an independent source should confirm the merchant's legal identity and official customer-service channels. The applicable cancellation, exchange, return, refund, and payment-protection terms should also be reviewed, with checkout remaining on the expected official domain and payment methods providing ordinary consumer dispute protections.

EVIDENCE

- The homepage's account and shopping functions create both credential and payment interaction points requiring ordinary merchant checks.
- The site's customer-support navigation references cancellation, change, exchange, purchase-history, and guidance functions that can be checked against the applicable transaction terms.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradictions. The positive assessment concerns website trust

and interaction risk; it does not independently verify the real-world operator.

Infrastructure Integrity

The site uses Amazon CloudFront CDN/WAF protection, providing a mitigating edge layer for delivery and exposure management. The observed infrastructure supports, but does not independently establish, legitimacy; the origin was not directly exposed in the observed network path.

EVIDENCE

- Served through AS16509, Amazon.com, Inc., with Amazon CloudFront identified as the CDN/WAF.
- Four observed addresses were CDN edge addresses, with 0 origin candidates identified.

Closing Assessment

Routine browsing is proportionate, while independent merchant-identity, returns, and payment-protection checks should be completed before credentials or payments are submitted.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of shopch.jp.

- The request stayed on shopch.jp. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-27.org, across 4 name servers. NOTED
- The registration is paid up to 2027-07-31. NOTED
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shopch.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
