Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Cider is an established online women's fashion retailer presenting clothing, accessories, bags, shoes, promotions, memberships, gift cards, shipping and returns, customer support, and mobile applications through a conventional ecommerce storefront.

Scam/Impersonation Risk

No contradictions were observed across the reviewed pages and technical signals. The storefront presents a coherent retail purpose, provides standard commerce and support functions, contains no phishing or brand-impersonation indicators, and published behavior showed no hidden sensitive forms, wallet activity, cloaking, or malicious execution. Normal interaction with the site is appropriate.

- The homepage identifies Cider as a women's fashion retailer and links to products, shipping, returns, support, and company information.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing indication.
- The domain was registered in 2013 and is approximately 12.88 years old.
- The site holds a global traffic rank of 19,648.

Regulatory Verification Notes

The reviewed pages describe a consumer retail business rather than a regulated financial service. No financial license claim or registration number is presented, which is a transparency item for corporate verification but not evidence of deception in this business context. Registration privacy through GoDaddy's proxy service is an administrative detail, while the site's terms, privacy, returns, shipping, company, and support pages provide the expected consumer-policy framework.

- The footer links to Terms of Service, Privacy Policy, Cookie Policy, Shipping & Delivery, Returns & Refunds, and Company pages.
- The domain is registered through GoDaddy.com, LLC, with registration extending to 2032-09-17.
- The site's transport encryption uses a RapidSSL TLS RSA CA G1 certificate with DV validation, valid through 2026-09-27.

What to Verify Next

For procurement or higher-value commercial engagement, independently confirm the company and returns information published on the site and retain order, payment, and support records in accordance with normal ecommerce controls. Account login and standard shopping activity are appropriate within those ordinary safeguards.

- The homepage provides links to About Cider, Company, Contact Us, Track My Order, and customer-support resources.
- The site offers shipping, returns, payment-method, sizing, and order-tracking information.

Summary Verdict

The site presents as a legitimate, established, high-trust ecommerce business with a coherent identity, clean reputation, and consistent operational content. No scam, impersonation, phishing, or identity contradiction was identified, and normal interaction—including account login and standard use—is appropriate.

Infrastructure Integrity

The site resolves to Alibaba (US) Technology Co., Ltd. infrastructure in the United States on AS45102. No CDN or WAF edge layer was identified; this is a neutral infrastructure characteristic, while the identified hosting environment and valid TLS provide baseline transport and hosting integrity.

- Hosted on AS45102, Alibaba (US) Technology Co., Ltd., United States.
- Two unique IP addresses were resolved, with no detected CDN edge IPs.
- TLS is issued by RapidSSL TLS RSA CA G1, uses DV validation, and expires 2026-09-27.

Closing Assessment

Proceed with normal account, shopping, and transaction activity, applying standard consumer safeguards and retaining relevant order and support records.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of shopcider.com.

- The request stayed on shopcider.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by awsdns-56.org, across 4 name servers. NOTED
- The registration is paid up to 2032-09-17. CLEAR
- It is hosted on ALIBABA-CN-NET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shopcider.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
