- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1999.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Portuguese-language ecommerce outlet for Electrolux and Continental household appliances, small appliances, accessories, parts, and extended warranties, supported by promotions, delivery offers, order assistance, WhatsApp service, and technical support; its apparent business model is conventional retail sales with ancillary warranty services.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, or deceptive financial propositions were observed. The storefront content is consistent with its stated retail purpose, while the domain's extensive historical record and clean external threat reputation provide strong provenance support. Automated interaction testing found no hidden or externally submitted credential forms, wallet activity, clipboard manipulation, or cloaking behavior.

- The homepage presents a coherent appliance catalog and was classified as an ecommerce storefront, with no page-level red flags identified.
- The domain has 277 archive snapshots spanning 1999–2026 (28 years tracked), with no suspicious repurposing or semantic drift detected.
- External threat-reputation checks recorded 0 malicious and 0 suspicious detections, no browser-safety finding, and no reported abuse associated with the observed hosting address.
- The homepage contained no sensitive form, hidden form, untrusted form destination, or detected login-form behavior in the supplied capture.

Regulatory Verification Notes

The available identity evidence converges on Electrolux: the storefront presents itself as an Electrolux and Continental outlet, the registered owner is Electrolux do Brasil S.A., and the organization-validated certificate identifies AB Electrolux. This is an ordinary retail operation rather than a financial or investment service, so the absence of a financial-services licence claim is not adverse. The supplied homepage extract does not establish the contents of separate corporate, consumer-policy, or statutory disclosure pages; no contradictory legal entity name was identified.

- Domain registration records identify ELECTROLUX DO BRASIL S.A. as owner; the current registration was created on 4 January 2016 (~10.59 years old) and expires on 4 January 2027.
- The homepage title identifies Shopclub as an outlet for Electrolux and Continental appliances.

- The site is served from AS8075 (Microsoft Corporation) in the United States.
- Transport encryption uses an OV certificate issued by Sectigo Public Server Authentication CA OV R36 to AB Electrolux, valid until 5 December 2026.

What to Verify Next

Institutional onboarding should confirm that the contracting merchant name shown at checkout matches the documented Electrolux entity, review the applicable sales, return, privacy, and extended-warranty terms, and validate official service channels through independently obtained corporate contact information. For significant purchases, the final price, delivery conditions, warranty provider, and payment recipient should be checked against the order confirmation.

- The homepage advertises extended warranties, making the identity of the warranty obligor and the coverage terms relevant to purchase review.
- The homepage offers free-shipping promotions, order assistance, WhatsApp service, and technical support, providing several channels whose consistency can be checked during onboarding.
- The available capture covers the storefront homepage but does not provide the text of checkout, returns, privacy, or warranty-contract pages.

Summary Verdict

The website is legitimate, established, and trustworthy. Its commercial presentation, corporate identity indicators, long operating history, and clean threat reputation converge without evidence of impersonation, phishing, or conflicting ownership claims.

Infrastructure Integrity

The site operates on identified Microsoft enterprise hosting infrastructure and uses organization-validated encrypted transport tied to the Electrolux organization. No CDN or WAF posture was established by the supplied evidence; the confirmed hosting and certificate controls mitigate transport and platform risk but are not, by themselves, proof of legitimacy.

Closing Assessment

Normal interaction, including account login, ordinary account activity, and standard retail transactions, is appropriate, subject to routine purchasing and payment controls.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of shopclub.com.br.

- The request stayed on shopclub.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cscdns.net, across 2 name servers. NOTED
- The registration is paid up to 2027-01-04. NOTED
- The earliest public archive of this site is from 1999-11-27. CLEAR
- It is hosted on MICROSOFT-CORP-MSN-AS-BLOCK, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shopclub.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
