

Is shopiapps.in legit? TrustSniffer's high-trust assessment: 100/100

shopiapps.in

Verdict

100

OUT OF 100

HIGH TRUST

shopiapps.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 75%.

What this site appears to be

Shopiapps.in presents Shopify experts and ecommerce development services, including store setup, theme customization, app development, integrations, proprietary apps, and marketing support. The page includes business contact information, testimonials, client metrics, and service links.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Shopiapps.in is a Shopify-focused ecommerce development agency presenting store setup, theme customization, app development, API and payment integrations, proprietary apps and themes, portfolio work, testimonials, and marketing support for businesses seeking to build or enhance online stores.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent commercial service model, identifies Shopify-focused offerings, provides business contact details, and contains no detected phishing, impersonation, malicious-content, or high-risk interaction indicators. External reputation checks were clean, with no blacklist or abuse reports associated with the observed infrastructure.

- Homepage content describes Shopify store customization, app and theme development, integrations, and ecommerce support.
- Behavioral analysis recorded no login form, hidden sensitive forms, wallet-drainer activity, clipboard hijacking, suspicious scripts, or cloaking.
- The domain was registered on 2013-08-03 and is approximately 13.01 years old.
- The site has 383 archive snapshots spanning 2013–2026, covering 14 tracked years.

Regulatory Verification Notes

The site operates as a digital commerce-development provider rather than presenting a regulated financial service. The supplied content does not establish a regulatory license or registration number; this is a transparency point for ordinary commercial due diligence, not evidence of deception. The business identity is presented consistently across the available service content, with contact information, testimonials, portfolio material, and described deliverables.

- Homepage content identifies Shopify development, ecommerce setup, proprietary apps, themes, and marketing services.
- The site's hosting resolves through AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- TLS is issued by WE1 at DV validation level and is valid to 2026-09-03.
- The domain registrar is GoDaddy.com, LLC, with expiration recorded as 2028-08-03.

What to Verify Next

Before a material engagement, counterparties should confirm the contracting legal entity, scope of work, payment terms, ownership of deliverables, and any applicable business registration requirements through the proposed agreement and an independent company record. Official support and contact channels should also be confirmed through an independently obtained business source.

- The homepage provides a business phone number, email contact, service navigation, portfolio references, and testimonials.
- The available content describes a conventional agency revenue model based on ecommerce implementation and development services.
- Page analysis found no sensitive submission form or untrusted form destination.

Summary Verdict

Shopiapps.in presents as a legitimate, established, and trustworthy business website with a coherent commercial purpose and no observed contradiction or abuse pattern. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with all observed addresses belonging to Cloudflare edge servers and no origin candidate identified. This reduces direct exposure of the underlying server and is a mitigating infrastructure characteristic, but is not by itself proof of legitimacy.

Closing Assessment

Engagement is appropriate for ordinary business purposes, subject to standard contractual, commercial, and vendor-onboarding checks proportionate to the value of the engagement.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of shopiapps.in.

- The request stayed on shopiapps.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR

- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shopiapps.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
