Full analysis

Overview

The website is an established direct-to-consumer ecommerce storefront for Miracle Made bedding, presenting silver-infused sheets and pillowcases, promotional bundles, shipping and returns information, customer reviews, and a 100-day money-back guarantee to support online product sales.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity indicators were observed. The product landing page presents a coherent consumer-commerce model with checkout, product information, shipping, returns, and customer-support content. Promotional urgency and performance claims are prominent, including “up to 99.7%” bacteria-growth reduction, but they do not constitute evidence of impersonation or malicious intent.

- The product page identifies Miracle Made bedding, pricing, bundle offers, customer reviews, shipping, returns, and checkout functionality.
- External reputation checks recorded no malicious or suspicious detections, and the domain is within the global top million by traffic.
- The site’s observed behavior showed no login harvesting, hidden forms, wallet activity, cloaking, or clipboard manipulation.

Regulatory Verification Notes

The site operates as a physical-goods ecommerce business rather than a financial or brokerage service, so financial licensing is not apparent from the presented business model. Its consumer-facing disclosures include product information, shipping terms, returns, customer support, and a money-back guarantee. The principal transparency point for prospective purchasers is to assess the substantiation and terms of the advertised product-performance claims and promotional counters; this is a consumer-disclosure matter, not an identity contradiction. No relevant third-party broker match was identified.

- The domain was registered on 2020-04-13 and is approximately 6.3 years old; registration is through Gandi SAS.
- The site is served from AS16509, Amazon.com, Inc., US.
- TLS is provided by issuer YR2 using DV validation and is valid through 2026-09-09.
- The product page states a 100-day money-back guarantee and provides shipping, returns, and customer-support information.

What to Verify Next

Before a high-value purchase, confirm that the advertised discount, delivery estimate, guarantee conditions, and product-performance claims remain consistent at checkout and in the applicable terms. Standard purchasing and account interaction are otherwise appropriate for the stated ecommerce model.

- The product page displays promotional pricing, bundle incentives, limited-inventory messaging, and a stated shipping date.
- The page identifies the 100-day guarantee, free shipping and returns, and customer-support channels.
- Product claims and review counts are presented directly on the product page and can be checked against the final order terms.

Summary Verdict

The website presents as a legitimate, established, high-trust ecommerce operation with a coherent commercial purpose and no observed contradiction suggesting scam activity, phishing, or impersonation. Its overall posture supports normal interaction and standard use.

Infrastructure Integrity

The site is protected by CDN/WAF infrastructure, with the observed edge address 216.198.79.1 hosted on AS16509, Amazon.com, Inc.; the origin server was not observable in this analysis. This provides a meaningful protective control against direct origin exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

Closing Assessment

Normal browsing, purchasing, account login, and standard account actions are appropriate, subject to ordinary review of the final order terms and consumer guarantee conditions.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shopmiraclebrand.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
